

**EXHIBIT A**  
**TIER 1 GRANT APPLICATIONS**  
**(sorted by Program Type, then Project Name)**

<b>Project Name</b>	<b>Applicant</b>	<b>Project Description</b>	<b>Total RMC Funds</b>	<b>Program Type</b>
Acquisition Monrovia Hillside Wilderness Update: RMC 3204	Monrovia, City of	Grant request from the City of Monrovia to acquire a 40-acre lot located on Lower Clamshell Truck Trail in the foothills of Monrovia, CA. Acquisition is essential for completion of the Wilderness Preserve due to its status on the Federally Endangered plant <i>Astragalus braunton</i> . Management Plan is currently being prepared for management of the Preserve and additional funds will be available (80k) from 2000 bond measure for maintenance.	\$1,236,000	Mountains, Hills, Foothills
Development of Milton & Harriet Recreation Area	Sierra Madre, City of	Grant request by the City of Sierra Madre for development of new passive park which embraces the city's CA native feel with its Gabrielino Indian history. Landscape is designed with low maintenance and drought tolerant characteristics. Project has also received matching funds.	\$25,000	Mountains, Hills, Foothills
Soledad Cyn CAPP Acquisitions	Mountains Recreation and Conservation Authority	Grant request by the Mtns. Recreation and Conservation Authority as part of the Angeles Linkage Conceptual Area Protection Plan (CAPP). CAPP was prepared as a joint effort including local and state agencies outlining key areas for protection based on wildlife movement and habitat quality. Application addresses 130 parcels covering 3842.55 acres.	\$900,000	Mountains, Hills, Foothills
Summitridge Park Southern Trail Development Project	Diamond Bar, City of	Request submitted by City of Diamond Bar for development of Summitridge Park Trail. Amenities include trail clearing, decomposed granite path, two rest stops w/benches, educational and interpretive signs and native planting.	\$64,729	Mountains, Hills, Foothills
Sycamore Canyon Trail Phase IV Development Project	Diamond Bar, City of	Request submitted by City of Diamond Bar for restoration and preservation of threatened natural habitat to 1.1 acre area of open space taken over by residents. They've built a soccer field, par course and movie screen resulting in loss of natural growth. Trail will include low impact exercise stations, decomposed granite and other amenities include benches, trash bins, and educational signage.	\$80,255	Mountains, Hills, Foothills
Una Lake Wetlands Acquisition & Restoration 1	Antelope Valley Conservancy	Grant request submitted by Antelope Valley Conservancy to preserve, restore and establish further restoration of 147 acres of high quality Rift Zone of Una Lake, adjacent wetlands/uplands, and spring fed waters. Proposed project begins needed restoration and prepares for Phase 2 acquisition of additional 500 acres to Barrel Springs. Grant provides 2 years monitoring after which mitigation banking will fund ongoing stewardship.	\$105,000	Mountains, Hills, Foothills
Wildwood Canyon Preserve Acquisition Project (SD)	Glendora, City of San Dimas, City of	Grant submitted jointly by the Cities of San Dimas and Glendora for the acquisition of 17 parcels totaling approx. 509.5 acres of undeveloped hillside open space to preserve the natural habitat and provide low-impact recreation. Site includes habitat linkages for sensitive and endangered species, five permanent water sources, water recharge, open space and a critical corridor buffer between the urban edge and the Angeles Nat'l Forest.	\$25,500,000	Mountains, Hills, Foothills

Project Name	Applicant	Project Description	Total RMC Funds	Program Type
Arrastre Canyon Acquisition	Nature Conservancy, The	This grant was submitted by The Nature Conservancy and proposes to acquire approximately 326 acres representing 1.7 miles of Arrastre Canyon near Soledad Canyon.	\$1,315,000	River/Tributary
Big Tujunga Dam Rest.	Los Angeles County Flood Control District	Grant request submitted by LA County Flood Control District for the restoration and enhancement of habitat for the Santa Ana Sucker along 14 miles of Tujunga Wash below the dam. A low -flow valve and control systems will be installed to supplement streamflow during dry periods. Beneficial flow regimes for SAS will be determined by habitat surveys and fish population surveys; installing temperature and stream gauges; and developing hydraulic models of the dame and wash.	\$2,000,000	River/Tributary
West San Gabriel River Walk	Long Beach, City of	This grant request was submitted by the City of long Beach, Department of Parks, Recreation and Marine to develop unused open space next to the western levee of the San Gabriel River into a passive park with pathways, and native landscaping.	\$2,288,143	River/Tributary
114th Street Park-South LA	Trust for Public Land	Grant request submitted by the Trust for Public Land in collaboration with Heal the Bay and Grant Housing and Economic Development Corporation for the acquisition and development of a pocket park located in South Los Angeles. The project will transform a blighted vacant lot into a place for rest, relaxation and recreation as well as a local meeting place for community groups. The park will be located in the heart of one of Los Angeles' densest and poorest neighborhoods and will provide a safe place for families living in overcrowded circumstances to exercise, participate in community and cultural events and enjoy a natural native landscape.	\$601,000	Urban
Gibson "Mariposa" Pk. Dev.	El Monte, City of/ Amigos de los Rios	Grant request submitted jointly by the City of El Monte and Amigos de Los Rios for the development of this 4.3 acre community park. The park has been designed with extensive community input based on a butterfly theme. Amenities will include: walking trail, native plants and trees with special focus on butterfly habitat, educational kiosk, outdoor classroom, interpretive area, half court basketball, restrooms, public art, interpretive signage and other butterfly themed amenities.	\$1,478,825	Urban
Jefferson Park	Pomona, City of	Grant request submitted by the City of Pomona for the acquisition and development of a new 1.76 acre urban park, to include exercise/walking trail, picnic area and other amenities.	\$2,150,000	Urban
Pine Avenue Park Acquisition & Development	Trust for Public Land	Grant request submitted by The Trust for Public Land, a non-profit organization, in collaboration with the City of Maywood for the acquisition and development of a small 6600 sq. ft. vacant lot into a community pocket park. The park will provide an educational model of sustainable landscaping which residents can incorporate into their own home gardens. This project will create vital open space in the City of Maywood which is a very dense city in the Southeast area of LA County.	\$526,402	Urban

Project Name	Applicant	Project Description	Total RMC Funds	Program Type
White Ave Park-Pomona	Pomona, City of	Grant request submitted by the City of Pomona for the acquisition and development of a 4.3 acre urban park including a fitness trail, picnic and rest areas and other amenities.	\$6,900,000	Urban
		<b>Total</b>	<b>\$45,170,354</b>	

**EXHIBIT B**  
**INELIGIBLE GRANT PROJECTS**  
**(sorted by Program Type, then Project Name)**

Project Name	Applicant	Project Description	Total RMC Funds	Program Type
Placerita Canyon Open Space Acquisition	Santa Clarita, City of	Grant submitted by the City of Santa Clarita for purchase of 140 acres of open space. Project is deemed ineligible for grant funding because the project is outside of the RMC territory.	\$500,000	Mountains, Hills, Foothills
Arroyo Seco Invasive Plant Removal	Angeles National Forest	This grant request submitted by Angeles National Forest is for the purpose of removal of an infestation of invasive plant species, including tamarisk, giant reed, tree tobacco and Spanish broom at The Arroyo Seco, using both mechanical and chemical treatments. Project will benefit California spotted Owl and many other species designated as Forest service sensitive and state species of special concern. Removal of invasive plants will also benefit visual and recreation values for the area. Project includes development of interpretive materials such as signs and pamphlets. Ineligible because it is outside RMC territory.	\$257,000	River/Tributary
River School	Friends of the Los Angeles River	Grant requested by Friends of the Los Angeles River. The goal of the River School is to build upon the success of our 2007 Long Beach education festival and River cleanup that brought over 550 students from 6 schools to the Willow Street Estuary. River School will add a two day workshop that will train teachers to incorporate watershed education into the classroom using FoLAR's teacher guide--a cross disciplinary guide that provides pre and post River visit lessons. The program will then conduct classroom outreach and brings students to the LA River and its tributaries on field trips to conduct hands-on active learning workshops that include water testing, biotic profiling, and community cleanups preparing students to become active and engaged leaders within their communities. Not eligible because the educational program is not linked to a capital project.	\$0	River/Tributary
Wrigley Heights, North Acquisition	Long Beach, City of	Acquire 18.6 acre existing golf course adjacent to the LA river bank for the city to continue to operate as a golf course.	\$18,000,000	River/Tributary
Canyon Institute Community Service Mobile, The	California Resource Connections, Inc.	Located in the City of Azusa, California Resource Connections, Inc. and California Conservation Corps are working with the WCA to develop a green resource center, known as "The Canyon Institute" as part of Azusa River Wilderness Park the grant request includes the purchase of an environmentally friendly vehicle which is not an eligible under the grant program.	\$75,000	Urban
Development of Palm St. Linear Park	Bellflower, City of	Grant submitted by the City of Bellflower to develop a passive use park adjacent to an existing pocket park utilizing public land. The project is deemed ineligible because the applicant secured a 10 year lease and bond funds require a 25 year term lease.	\$1,158,840	Urban

Project Name	Applicant	Project Description	Total RMC Funds	Program Type
Development Palm Station on the Greenway Trail	Whittier, City of	Design and construction of an educational exhibit highlighting three main architectural styles of early Whittier homes (Victorian, Craftsman, and Spanish eclectic). Project is deemed ineligible because proposed signage does not meet program content requirements.	\$137,500	Urban
Habitat Authority Mobile Ed Development-Whittier	Puente Hills Landfill Native Habitat Preservation Authority	Project includes purchase of an environmentally-friendly vehicle to travel to schools and the community for outreach programs consistent with "Coexisting with Wildlife message." Funding request is deemed ineligible because program funding will not pay for vehicle costs.	\$75,000	Urban
Hazard Stream System Wetland Restoration Project	North East Trees	Located in East Los Angeles, project will restore approximately .5 miles of stream course with several smaller wetlands through removal of railroad gravels and recontouring of the valley floor. Newly restored habitat will become an integral part of Hazard Park through implementation of trails, bridges and observation areas, making the wetland and stream accessible to the public for the enjoyment of nature. Project location is outside of RMC Territory.	\$4,790,000	Urban
Liberty Pk. Raquetball Rest.	Cerritos, City of	Grant request submitted by the City of Cerritos for the renovation of the four-racquetball courts into a large multi-purpose room with one remaining racquetball court to better serve the community with a variety of programming elements. Project is for active recreation and therefore does not meet program goals for funding.	\$0	Urban
St. Isidore Center Acquisition/Restoration-Los Alamitos	Comite' Del Amor	Purchase of former historic church building to convert to non-denominational chapel open to the community. This project is deemed ineligible because bond funds cannot be used for restoration of building that does not meet program goals.	\$1,418,605	Urban
<b>SUM</b>			<b>\$26,411,945</b>	

**EXHIBIT C**

**RIVER/TRIBUTARY PARKWAYS PROJECTS**

<b>Project Name</b>	<b>Excel ID #</b>	<b>Applicant</b>	<b>Total RMC Funds</b>	<b>Tier 1</b>	<b>Tier 2</b>	<b>Project Description</b>
Alhambra Wash Restoration	49	Amigos de los Rios Los Angeles County Department of Parks & Recreation	\$8,415,000		1	Grant request submitted by Amigos de los Rios and the Los Angeles County Department of Parks and Recreation for design, construction drawings & permits required to naturalize the portion of the Alhambra Wash Channel that passes the Whittier Narrows Golf Course. This project includes construction drawings for removing the box channel and replacing it with a series of natural braided channels. Key features include bioengineering with native landscaping, connections with the regional trail system and trail amenities including bridges, benches and interpretive signage. Potential benefits include water quality protection, water conservation, habitat, recreational and educational opportunities. This project has local community support
Arcadia Wash Restoration- Arboretum Naturalization Project	50	Amigos de los Rios Los Angeles County Department of Parks & Recreation	\$6,074,175		1	Grant proposal submitted by Amigos de los Rios and the Los Angeles County Department of Parks and Recreation for tapping 400CFS of storm water run-off from Arcadia Wash Box channel which runs through LA County Arboretum to create a naturalized multi-benefit meandering stream. This stream would cross through proposed new entrance to terminate in Baldwin Lake. The storm water routed through the meandering stream would be incrementally purified by vegetation, then discharged into a specially designed cistern below the "lake. recharging the regional aquifer..
Arrastre Canyon Acquisition	51	Nature Conservancy, The	\$1,315,000	1		This grant was submitted by The Nature Conservancy and proposes to acquire approximately 326 acres representing 1.7 miles of Arrastre Canyon near Soledad Canyon.
Arroyo Seco Invasive Plant Removal	52	Angeles National Forest	\$257,000	Ineligible	Ineligible	Grant application submitted by Angeles National Forest for removal of an infestation of invasive plant species, including tamarisk, giant reed, tree tobacco and Spanish broom at the Arroyo Seco, using both mechanical and chemical treatments. Project will benefit California spotted Owl and many other species designated as Forest Service sensitive and State species of special concern. Removal of invasive plants will also benefit visual and recreation values for the area. Project includes development of interpretive materials such as signs and pamphlets.
ARWP Phase1 of Devel of Theological Sem Property	169	Long Beach, Department of Parks, Recreation and Marine, City of	\$500,000		1	Grant request submitted by the Watershed Conservation Authority for the Phase 1 development of this Theological Seminary located within the Azusa River Wilderness Park. Planning process to integrate the elements from the El Encanto/Azusa River Wilderness Park Master Plan as well as addition of further amenities and habitat restoration. WCA will hold fee title once purchase is complete.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Avocado Creek and Workman Mill Restoration	54	Los Angeles County Flood Control District	\$1,600,000		1	This grant request submitted by LA County Flood Control District is for the acquisition of 10,000 square feet in the vicinity for the intersection of Avocado Creek & Workman Mill Road for the purpose of creating an open space area that will include stormwater infiltration swales, a 4,000 foot long multi-use trail and a 2,000 foot-long on-street trail connecting the future Duck Farm project with other San Gabriel River trails. The trails will contain approximately 75,000 square feet of landscaping and irrigation, 4,000 linear feet of decorative fence, and interpretive and directional signs. The project will provide a recreational and educational community resource.
Azusa River Wilderness Park at El Encanto Phase 1 Development	55	Watershed Conservation Authority	\$2,500,000		1	This grant request was submitted by the Watershed Conservation Authority for phase one development of the El Encanto site in the Azusa River Wilderness Park, including the design and implementation of the Multiple Use/Special Use Areas (the area of the mobile home park) that will include the Outdoor Amphitheater, Picnic Area, Restroom, an Overlook, Entry Gates, Trail improvements as well as Interpretive and Way finding Elements. There is local support for this project.
Azusa River Wilderness Park Phase 2 Development: River Trail	53	Watershed Conservation Authority	\$15,000,000		1	This grant request was submitted by the Watershed Conservation Authority for the development of the El Encanto site in the Azusa River Wilderness Park. It will create a courtyard gathering space, River View Terrace and Trail, make the parking lot sustainable with less hardscape and some bio swales and plantings and some habitat restoration. The trail on the north side of the river with the River Trail Bridge and Trail will connect with Garcia Trail.
Azusa-Dalton Wash Trail Development	56	Azusa, City of	\$697,000		1	This grant request was submitted by the City of Azusa to develop Dalton Wash, a LA Co-owned and operated facility, into a trail that runs diagonally, throughout the length of the city. Amenities will include: signage, benches, refurbishment of one side of the concrete wash. Local schools will be asked to participate in an "Adopt a Trail" program for maintenance purposes.
Azusa-Geology Park Development	58	Azusa, City of	\$289,000		1	Grant request submitted by the City of Azusa for the development of a .5 acre parcel that sits between a residential neighborhood near the San Gabriel River trailhead and the SG River regional bike trail for creation of interpretive park focused on geology. Partnership exists with Vulcan Materials Company and project allows future connectivity opportunities and river amenities.
Azusa-Pacific Electric Bridge Trail Development	60	Azusa, City of	\$718,000		1	This grant request was submitted by The City of Azusa to develop, restore, and extend the historic Pacific Electric Railway. Development includes improvements along existing bridge trail, installation of amenities (bench, water, shade) at the San Gabriel River Bike Trail Junction, and installation of a trail extension into the City of Azusa with interpretive signage.
Azusa-Robert's Creek Development	61	Azusa, City of	\$690,000		1	Grant request submitted by the City of Azusa for the restoration of 1 acre of trails along Robert's Creek, tributary to San Gabriel River with the confluence located in the western section of housing development known as Mt. Cove located in north Azusa. Improvements include bank restoration, installation of native plants, and interpretive signage to focus on historical contributions made by the Robert's Family to Azusa Canyon during the California Gold rush area.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Azusa-Sierra Madre Trail Development	62	Azusa, City of	\$730,000		1	Grant request submitted by the City of Azusa for the extension of the new multipurpose trail along Sierra Madre being created as part of the Rosedale Development. Trail will extend to Todd Ave to link to the proposed Geology Park and on to SG River bike trail. Community access improvements include trail design, connectivity to river amenities, installation of native plants and interpretive signage to focus on The Canyon City historical elements.
Azusa-Spreading Basins Development	63	Azusa, City of	\$410,000		1	Grant request submitted by the City of Azusa for development of property owned by Azusa light & water. Improvements include native plant restoration to screen water conveyance systems from regional bike trail, benches/shade for sun protection, and interpretive signage to include connectivity of river amenities north of El Encanto and south of Lario Park/Santa Fe Dam.
Bellflower Gateway Park Development project	64	Bellflower, City of	\$170,500		1	Grant request submitted by the City of Bellflower for the development of .2 acres for new passive open space and recreation park. The City owns one parcel and will acquire the other parcel using city general funds. Project elements include a decomposed granite pedestrian path, tress, groundcover, irrigation, park benches and a trash receptacle.
Bellflower Riverview Park East Development Project	65	Bellflower, City of	\$1,955,550		1	Grant request by the City of Bellflower to develop 4.5 acre property into a passive park and active park. The proposed project includes a dog park, gathering areas, native tree grove and a soccer field.
Big Santa Anita Canyon Invasive Plant Removal	66	Angeles National Forest	\$320,000		1	Grant request submitted by Angeles National Forest Service. Big Santa Anita Canyon is infested with multiple invasive plant species including tamarisk, giant reed, tree tobacco, Spanish Broom. This proposal includes removal of invasive plants using both mechanical and chemical treatments along 5 miles of riparian habitat and involves initial and follow-up treatment. Project will benefit California spotted owl and many other species designated as Forest Service sensitive and state species of special concern. Removal of invasive plants will also benefit visual and recreation values for the area. Project includes development of interpretive materials such as signs and pamphlets. Some archeological, botany and wildlife surveys have been conducted but NEPA is not completed for project. County crews are trained and prepared to implement treatments.
Big Tujunga Canyon Arundo Donax Removal	67	Angeles National Forest	\$255,000		1	Grant request to remove invasive plants starting at Mill Creek and continuing 12 miles to the Angeles National Forest boundary, using mechanical and chemical treatments. Project will benefit federally threatened Santa Ana sucker, migratory birds and state species of special concern. Arundo removal will also benefit aesthetic and recreational values for the area. Project includes development of interpretive materials including signs and pamphlets. NEPA has been completed for project. 404 permit still outstanding.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Big Tujunga Dam Rest.	31	Los Angeles County Flood Control District	\$2,000,000	1		Grant request submitted by LA County Flood Control District for the restoration and enhancement of habitat for the Santa Ana Sucker along 14 miles of Tujunga Wash below the dam. A low-flow valve and control systems will be installed to supplement stream flow during dry periods. Beneficial flow regimes for SAS will be determined by habitat surveys and fish population surveys; installing temperature and stream gauges; and developing hydraulic models of the dam and wash.
Buena Park-Coyote Creek Greenway Project	68	California Resource Connections, inc.	\$300,600		1	Grant request submitted by California Resource Connections, Inc. for the development of site design, construction plan, and creation of 1 acre greenway and linear pocket park along the west side of Coyote Creek. Park will provide park space in dense urban neighborhood as well as future rest stop along the bike path. Permits have not been secured for this project.
Burke St. River Park Dev.	69	Pico Rivera, City of	\$1,036,000		1	Grant request submitted by the City of Pico Rivera for the development of 2.63 acres of a vacant city parcel, in combination with another 1.87 acre parcel owned by Union Pacific Railroad to create new passive open space for recreation. Project will include recreational opportunities, interpretive signage, and enhance the corridor leading to the San Gabriel River Bike Trail and recently completed Paso del Rio Spreading Grounds Recreation Project.
Burris Pit Pk.	148	Anaheim, City of	\$2,579,000		1	Grant submitted by the City of Anaheim for improvements for public access to the Santa Ana River via a new trail system and interface with Burris Basin. Funds will be used to remove security fencing, construct two observation decks, grade and construct a new 1.63 mile ADA accessible, permeable paved trail that will connect to an existing spur of the Santa Ana River Trail, create and install interpretive panels and trail signage, construct one staging area with a restroom, drinking fountains and parking, install safety fencing, trash receptacles and benches and remove non-native plants and plant native vegetation.
Canyon Grounds Multiuse Improvements	70	Los Angeles County Flood Control District	\$0		1	This grant request was submitted by the Los Angeles County Flood Control District for improvements to the San Gabriel Canyon Spreading Grounds and will open a portion of the facility to the public. This would include (1) routing flows through a newly-constructed underground pipe to convey increased flows to the spreading basins; (2) renovating an existing concrete channel into a natural meandering stream; (3) relocating existing fencing; (4) constructing bike trails and pedestrian connections to the San Gabriel River Regional Bike Trail and adjacent City of Azusa improvements; (5) realigning the existing access road and channel; (6) installing interpretive signage; and (7) planting native landscaping.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Canyon Institute Outdoor Classroom Project	71	California Resource Connections, inc.	\$275,550		1	Grant request submitted by California Resource Connections will be a regional low impact development demonstration and watershed education center. To accommodate future users and minimized related impacts, CRC proposes to design and build new site access, parking and security improvements using sustainable design, materials and management practices. Project components include a new driveway, on-site parking, ADA access to classrooms and offices, interpretive security gates and fencing, and landscape improvements. Designs will include permeable surfaces, strategic drainage design, native and compatible low-water plant species and recycled materials where possible. Parking areas and travelways will accommodate multiple purposes including community or regional special events.
Canyon Institute Site Access and Security	72	California Resource Connections, inc.	\$395,940		1	Grant request submitted by the California Resource Connections, Inc. to restore and convert a garage into a classroom for a watershed education center. Project proposal also includes native landscaping that would be part of an outdoor classroom.
Carbon Creek Confluence Park Dev. Project	150	Los Alamitos, City of	\$757,101		1	Grant request submitted by the City of Los Alamitos for the construction of the Carbon Creek Confluence Park. Project will restore and develop a 1.62 parcel of undeveloped land into a passive park with landscaping composed of native plants, a walking trail and interpretive signage. Parcel includes a walking bridge, visible from the street that will be adorned with decorative art as a way to draw patrons into the park.
Charter Oak Wash Restoration & Interpretive Center	152	Covina Parks & Recreation Department, City of	\$894,000		1	Restoration of native riparian habitat, erosion mitigation, removal of non-native vegetation, and old drainage pipes at Charter Oak Wash in Kahler Russell Park and the construction of a nature/water history interpretive center. Erosion has caused the banks of the wash to fail and impede upon the park. The project also consists of an educational signage program along an existing trail. Funding has been secured for the design and construction of a community/interpretive center. The City of Covina is requesting funding for the design and construction of the Charter Oak Wash Restoration and native plantings and only the construction of the Interpretive Center.
Citrus Heights Bike Stop Development	73	Watershed Conservation Authority	\$320,000		1	Grant request submitted by Watershed Conservation Authority for the development of Citrus Heights Bike Stop. Property is adjacent to SG River and will provide a rest stop for bicyclists and other pedestrians using the trail. Property is owned by MRCA and will be conveyed to WCA for development into a bike stop area. Proposed amenities include drinking fountain, benches and interpretive/directional signage about the SG River Watershed area. Land tenure requires deed transfer from MRCA to WCA, per agreement.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Cocoa St. Park Development-Compton	158	Compton, City of	\$563,000		1	Grant request submitted by the City of Compton to develop a park and create new open space from the existing street right of way on Cocoa Street. It will serve as a gateway to provide better access to the existing multi-purpose trail adjacent to Compton Creek. A chain link fence will be removed and replaced with decorative fencing. Storm water, which currently drains from the surrounding area will be treated with Best Management Practices. The park's primary features will include a native plant garden, community walking path, park benches, water fountains and interpretive signage.
Community Access Developments for Azusa River Park	74	California Resource Connections	\$350,000		1	This grant request was submitted by the California Resource Connections for designee elements conceptualized in the Azusa River Wilderness Park Master Plan that offer both educational and low-impact recreational opportunities that facilitate community use of the park. Areas in need of development are the common areas at El Encanto/WCA and RMC headquarters (i.e. back patio and meeting room); and those areas at Taylor Property that lend themselves to this type of use (exterior public spaces). Physical improvements may include benches, chairs, tables, lighting, an refurbishment of the grounds (i.e. refurbishment of the drainage system for the hill behind the back patio at El Encanto) and interpretive signage (way finding, regulatory, and site interpretation).
Coyote Creek Bikeway Entry Development Project	160	California Resource Connections, inc.	\$217,100		1	Grant submitted by the California Resource Connections to provide the Coyote Creek Bikeway a regional identity. CRC proposes to design and construct four prominent entry points, tow at the North Fork of Coyote Creek and Artesia Blvd. and two at Coyote Creek and Marquardt Ave in Cerritos. Place-based project elements include whimsical, custom-designed gates and fences, interpretive signage and appropriated native plants. A design competition among schools in the watershed will be utilized to identify design themes for each gate. A palette of plants and a hardscape materials will be developed to create the signature look for not only these three sites but for subsequent trail-side installations.
Coyote Creek Restoration and Greenway Project	76	California Resource Connections, inc.	\$981,000		1	Grant request submitted by California Resource Connections for restoration of Coyote Creek and trail linkage. Greenway would connect La Habra marketplace, Vista Grande and Loma Verde parks to dense underserved neighborhoods and the anticipated Whittier Greenway ROW. CRC proposes a multi-phase and multi-jurisdictional project that requires further matching funds, collaboration and support.
Coyote Creek Watershed Recreational Access	77	Watershed Conservation Authority	\$10,000,000		1	This grant request was submitted by the Watershed Conservation Authority to implement restoration projects throughout the Coyote Creek Watershed. Those identified in the coyote creek Watershed Plan, the San Gabriel River Corridor Master Plan and others.
Coyote Creek Watershed Restoration Projects	78	Watershed Conservation Authority	\$10,000,000		1	Grant request submitted by the Watershed Conservation Authority. This project is to implement restoration projects throughout the Coyote Creek Watershed. Those identified in the Coyote Creek Watershed Plan, the San Gabriel River Corridor Master Plan and others.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
DeForest Park Wetland Restoration Project	79	Long Beach, Department of Parks, Recreation and Marine, City of	\$2,737,495		1	This grant request was submitted by the City of Long Beach, Department of Parks, Recreation and Marine to restore a 33.6 acre flood detention basin adjacent to the Los Angeles River with a degraded wetland dominated by exotic species and a degraded pedestrian trail into a functioning wetland with improved trails, overlooks and educational displays. Project elements include improved spillways for storm drain outlets, regarded slope to restore stream flow and trails, installation of trash collection devices, removal of exotic plants, replanting of native plants. redirection of Market Street storm drain to wetland instead of pump fore by, and preparation and installation of educational and directive signage
Development of the Duck Farm Phase 1A Project	80	Watershed Conservation Authority	\$2,747,961		1	This grant request includes a new entrance consisting of landscaping and park signage at the Duck Farm. Improvements to the I-605 Freeway underpass and an 120 space parking lot will be developed, as well as a Pocket Park. 14-16 acres of riparian vegetation, a 3.5 acre wildflower Meadow, picnicking and fitness stations for passive recreation. A River Overlook area will provide a viewing station at the river's edge.
Development of the Duck Farm Phase 1B Project	81	Watershed Conservation Authority	\$9,155,355		1	This grant Request submitted by the Watershed Conservation Authority will include a new 150 space parking lot improvement to the access road to a community garden and dog park. A meandering trail along enhanced riparian landscape and meadow will lead to an expanded river-edge promenade along the east bank of the San Gabriel River between Valley Blvd. and to the new Visitor Center and amphitheatre/outdoor classroom adjacent to a one acre fresh water marsh landscape. Access improvements by means of sidewalk improvements and a pedestrian access ramp. The existing equestrian facility will be expanded and improved. There is strong local community support for this project.
Development of the Visitor Center at the Duck Farm	82	Watershed Conservation Authority	\$420,000		1	This grant request was submitted by the Watershed Conservation Authority to develop the Visitor Center at the Duck Farm River Commons which will consist of the conversion of the existing historic two story structure to accommodate an administration and interpretive facility for the project. The River commons project represents a transition of the landscape from an agricultural one to a natural landscape; interpretive elements include both natural and cultural history. Improvements to the structure will be carried out consistent with prevailing state and local codes and with the Mitigated Negative Declaration for the Duck Farm River Commons Phase 1. There is significant local support for this project.
Drake Chavez Greenbelt Development Project	83	Long Beach Department of Parks, Recreation and Marine, City of	\$3,000,000		1	This grant request was submitted by the City of Long Beach Department of Parks, Recreation and Marine to fund for the preparation of the planning and environmental documents for the future development of 26 acres of park property adjacent to the Los Angeles River to include wetland restoration, trails and passive and active recreation areas, habitat restoration and an environmental education center.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Duck Farm Plant Nursery Development Project	84	LA Conservation Corps	\$585,750		1	This grant request by the LA conservation Corps will develop and maintain a native plant nursery within the larger Duck Farm Phase 1 Plan of The Watershed Conservation Authority (WCA) to develop a new 37.5-acre park along the San Gabriel River on the northern portion of the former 57 acre Woodland Duck Farm site in the unincorporated community of Bassett. The nursery will be developed to meet the increasing needs for native plants by nonprofit agencies, cities, and other governmental agencies, cities, and other governmental agencies throughout the SGV Watershed and LA county.
Eaton Wash Trail	85	Pasadena, City of	\$0		1	Grant request submitted by the City of Pasadena for the development of Easton Wash Trail consisting of hiking, biking and walking trails within the City limits. Presently inaccessible to the public, the trail will provide new public access and enhance access to existing trails between Eaton Canyon Nature Center and Angeles National Forest by extending a new trail south and connecting the foothills to outlying communities. No funds requested at this time. Planning/design phase completion date is 6/30/08.
El Dorado Nature Center Renewal	86	Long Beach, Department of Parks, Recreation and Marine, City of	\$600,000		1	This grant request was submitted by City of Long Beach, Department of Parks, Recreation and Marine to refurbish the El Dorado Nature Center as demonstration riparian. riparian woodland, rivirine, oak woodland, and coastal sage scrub habitats through selected removal of exotic plants, thinning of heavily wooded areas, and planting of natives.
El Dorado Regional Park Water Conservation and Water Quality Improvements	87	Long Beach Department of Parks, Recreation and Marine, City of	\$3,500,000		1	This grant request submitted by the City of Long Beach, Department of Parks, Recreation and Marine, implements the feasibility study funded by the RMC under grant RMC3208. The project is to convert six lakes in El Dorado regional Park and Nature Center from potable well water to excess reclaimed water. This will be done by installing nano-filtration plants at the northern most lake in the Regional Park an in the maintenance yard adjacent to the nature center. The nano-filtration will provide clean water to the lakes, and allow the lakes to overflow into the connecting streambeds, thereby providing increased circulation and cleansing of the lakes from the accumulation of pollutants. The estimated potable water savings would be 190 acre-feet per year. There is no local community support for this project.
El Monte Northern Rio Hondo Linear Park Dev.	88	El Monte, City of	\$772,000		1	This grant request was submitted by the City of El Monte and will provide continuous connections along the river between existing Pioneer and Fletcher Parks. It will also provide a quality passive park experience for Emerald Necklace trail users and local El Monte residents. The 1.24 acre park amenities include walking and bike trails, landscaping, picnic tables, benches, open turf play areas, interpretive signage and sustainable water features.
Emerald Horseshoe: Restoring Connections	89	Altadena Foothills Conservancy	\$25,000		1	This grant request was submitted by the Altadena Foothills Conservancy to acquire land, develop a regional plan for restoring habitat and developing trails and parks along the corridors defined by the Eaton Wash and Arroyo Seco and connected by the foothills

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Emerald Necklace Segment A2: ACE-Garvey Ave to Eaton Canyon Wash	91	Amigos de los Rios Los Angeles County Department of Parks & Recreation	\$430,580		1	Grant request submitted by Amigos de los Rios and LA County Parks is to enhance an existing trail along the Rio Hondo as a segment to the Emerald Necklace. The trail is .8 miles and crosses the cities of Rosemead, Montebello, El Monte and South El Monte. This trail project would provide amenities to the user, interpretive signage, and native landscaping.
Emerald Necklace Segment B2: From Valley to Peck Park South	92	Amigos de los Rios Los Angeles County Department of Parks & Recreation	\$352,400		1	This grant request was submitted by Amigos de los Rios and the Los Angeles County Department of Parks and Recreation for this Emerald Necklace multi-benefit project involving enhancing an existing trail not currently open to the public with native plant landscaping, interpretive signage and trail amenities to include benches, water fountain & new decorative gates. This segment runs for 3 miles along the West Bank of the Rio Hondo through the LA county Flood control right-of-way, connects and passes through Rio Vista Park in El Monte. This project proposes to enhance connection between Valley Blvd. and Rio vista Park & between Rio vista Park & the south entrance to Peck Park. A vegetated swale will be added where appropriate to percolate water into the ground rather than loading the channel. This segment is next critical connection to the EN Trail loop.
Emerald Necklace Segment C2: Quarry/San Gabriel River to Ramona Blvd.	90	Amigos de los Rios Los Angeles County Department of Parks & Recreation	\$291,000		1	Grant request submitted by Amigos de los Rios/LA County DPR. The Emerald Necklace multi-benefit project involves enhancing an existing public county trail with native plant landscaping, interpretive signage & trail amenities to include benches, water fountain and new decorative gates. This segment runs 1.4 miles along the West Bank of the San Gabriel River from where Hanson Aggregates touches the SGR to Ramona Blvd. We propose to articulate the intersection where Lower Azusa, a major arterial, crosses the SG River. Where appropriate we add a vegetated swale to percolate water into the ground rather than loading channel. This segment is the next critical connection of the EN Trail Loop.
Emerald Necklace Segment E: Ramona Blvd to Whittier Narrows @ Peck Road	93	Amigos de los Rios Los Angeles County Department of Parks & Recreation	\$344,000		1	This grant request was submitted by Amigos de los Rios and the Los Angeles County Department of Parks and Recreation for this Emerald Necklace multi-benefit project that involves enhancing an existing county bike and equestrian trail currently open to the public with native plant landscaping, interpretive signage and trail amenities to include benches, water fountain, & new decorative gates as appropriate. This segment runs for 309 miles along the West bank of the San Gabriel River from Ramona Boulevard to Peck Boulevard. the proposed project will articulate the intersection where Valley Boulevard crosses the San Gabriel River. Where appropriate there will be vegetated swales to percolate water into the ground.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Encanto Fish Canyon Trail project	95	Duarte, City of	\$455,000		1	This grant request was submitted by the City of Duarte to extend the Encanto Nature Walk Trail north along the west bank of the San Gabriel River to provide trail access from Encanto Park and the San Gabriel River Bikeway to the trail developed by the City of Duarte to Fish Canyon Falls. Access will also be provided to the Van Tassel Motorway, designated as a County hiking trail. Non-native landscaping along Encanto Parkway will be remove and replaced by native plants. Interpretive and directional signs will be provided to supply trail users with information regarding the area's natural history and information on trail destinations.
Encanto Nature Walk	94	Duarte, City of	\$498,000		1	This grant request by the City of Duarte is for the construction of a nature center with an outdoor classroom for school groups at Encanto Park. Landscaping will include native plants and a bios wale with typical native plants. The bioswale will prevent is designed to prevent erosion and infiltrate storm water, with interpretive signs that will describe common plants and animals visible in the river habitat. A nature trail will be constructed and a river viewpoint along the river adjacent to Encanto Park.
Equestrian Arena, Public Access to Rio Hondo	96	Save our Community, INC. 501-C3	\$37,500		1	Grant submitted by Save Our Community, Inc. for development of 7 acre area for equestrian arena, trailer parking, bathrooms, public access, invasive removal, and habitat restoration along South San Gabriel.
Fish Canyon Trail Development	57	Azusa, City of	\$922,000		1	This grant request was submitted by the City of Azusa to develop Fish Canyon into a gateway entrance to 3-tiered Fish Canyon Falls. Regional connections will be planned and developed to Azusa River Park (north) and to all other river amenities in the SG River Bike Trail (south). Improvements include restroom facilities, interpretive gates, kiosks, trail signage, benches, and landscaping. Native river rock will be incorporated into thematic messages based on historic and current uses of the canyon.
Hollydale Garden Development Project	97	Central Basin Municipal Water District	\$139,320		1	Grant submitted by the Central Basin Municipal Water District to develop a demonstration garden that features drought tolerant plans and water efficient irrigation systems. The project area is near the LA River and Hollydale Park in South Gate and involved coordination with the Hollydale Elementary School.
LA & SG Rivers Habitat Restoration Program	98	Los Angeles and San Gabriel rivers Waterched Council	\$250,000		1	This grant request by the Los Angeles & San Gabriel Rivers Watershed Council will (1) establish a local, documented source of native seeds (propagates) to increase genetically-appropriate plants for restoration/revitalization projects in the watersheds; (2) establish a program for collecting and distributing the propagates; and (3) increase collaboration among resource agencies, NGOs, and growers through a series of meetings, trainings, and a user-friendly database of projects. The Watershed Council will manage the project, maintain the project database, and monitor seed collection sites. RSABG will verify documented collections, collect specified seeds, and manage seed databases. Projected to be a three-year program, we showing a one-year budget for seed money.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Lario Creek Multi use Improvements	99	Los Angeles County Flood Control District	\$0		1	This grant request was submitted by the Los Angeles Flood Control District to transform a man-made water supply ditch into a natural meandering stream course with additional capacity to provide passive/low impact recreational opportunities including, trail links, interpretive signage, cultural and environmental education displays, and outdoor classroom settings. This project will link with the proposed San Gabriel River Discovery Center, local hiking and equestrian trails, and the regional bike trails located along the San Gabriel River and Rio Hondo.
Lario Park Dev Azusa	59	Azusa, City of	\$558,000		1	Grant request submitted by the City of Azusa for the development of Lario Park, an LA County owned and operated facility, into a San Gabriel River Trail Greenway to the SG River regional bike trail. City is interested in developing the park to include commercial/retail amenities incorporated on adjacent reclaimed mining property. Public access improvements and design elements to be included. Mining on this land will cease in 2025.
LCWA Bixby/Dean Acquisition	100	Los Cerrito Wetlands Authority	\$18,000,000		1	Grant request submitted by Los Cerritos Wetlands Authority for the purchase of 45 acres of pristine tidal salt marsh habitat, as well as several acres of brackish marsh mixed with an abundance of degraded salt marsh in need of rehabilitation. Further information needed regarding restoration of native habitat.
LCWA Bryant Phase II Acquisition	101	Los Cerrito Wetlands Authority	\$10,000,000		1	Grant request submitted by Los Cerritos Wetlands Authority for the purchase of frontage property totaling 17 acres as part of Los Cerritos Wetlands. Purchase of properties is integral to developing a comprehensive restoration plan for the area and will allow for design of public trails that will connect the communities of Southeast Long Beach and Seal Beach.
LCWA Wetlands Rest and Recreation Access-Bixby-Dean	103	Los Cerrito Wetlands Authority	\$18,000,000		1	This grant request was submitted by the Los Cerritos Wetlands Authority to negotiate the surface rights to an 185 acre property to enhance the accessibility to 45 acres of tidal salt marsh for public viewing. Costly Hydrological restoration will be needed to improve the habitat value. A network of public recreation trails will also be included.
LCWA Wetlands Rest and Recreation Access-Bryant	102	Los Cerrito Wetlands Authority	\$10,000,000		1	This grant request was submitted by the Los Cerritos Wetlands Authority to purchase property adjacent to the Los Cerritos Wetlands to enhance the small tidal marsh on the east parcel, while fully restoring the degraded historic wetlands on the west side of the San Gabriel River. Funding will also allow for the design of public trails connecting the communities of Southeast Long Beach and Seal Beach.
LCWA Wetlands Restoration and Recreation Access-Hellman	104	Los Cerrito Wetlands Authority	\$5,000,000		1	This funding request was submitted by the Los Cerritos Wetlands Authority to initiate restoration of the salt marsh and upland habitat on 100 acres of wetlands. A large part of this project will involve a costly hydrological engineering aspect intended to improve the tidal flushing on site. This will also improve the recreational access by linking it with other neighboring parks and communities of Seal Beach.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Maywood Riverfront Park Project Phase II	239	Maywood, City of	\$250,000		1	This grant request was submitted by the City of Maywood to construct a 6.16-acre park that was previously funded by the RMC Board as Park Project (RMC #3395). This will be the second phase of park implementation proposed to expand the Maywood Riverfront Park with open space consisting of native plant ornamental landscaping, picnic areas, river viewpoints, bike/pedestrian trails, and bilingual interpretation that will comprehensively serve for passive recreational activities, promote public health, and link the community to the Los Angeles River Greenway Project. Estimated completion expected in November 2007. There is strong local community support for this project.
Montebello Rio Hondo Riverscape Conservatory	105	Montebello, Department of Parks & Recreation, City of	\$7,650,000		1	This grant request was submitted by the City of Montebello, Department of Parks and Recreation to clear the invasive un-native foliage to improve flood capacity; restoring natural habitat landscape; provide clean and safe trail linkage into the Rio Hondo Trails, the Bosque Rio Hondo, and establishing a conservatory. An educational facility promoting environmental enrichment will service the patrons using bike paths, horse trails and passive recreation.
Native Habitat Restoration, trail improvements, Compton	197	Compton, City of	\$1,500,000		1	Grant request submitted by the City of Compton for the restoration of native habitat along the existing multi-purpose trail adjacent to the Compton Creek. Native riparian landscaping will be planted along the half-mile trail, educational signage and recreational amenities will be installed, and the existing chain link fencing will be replaced with a decorative fence. Storm water runoff will be collected, treated with best management practices, and recycled in a gray water irrigation system.
Norwalk Dog Park Acquisition & Development	143	Watershed Conservation Authority	\$830,000		1	This grant was submitted by the City of Norwalk. It proposes to develop approximately 1.5 acres of land adjacent to the San Gabriel River. This property is under fee ownership by the LA County Flood Control District and is mainly unimproved easement and not suited for urban use. This set presents an ideal setting for a dog park that would encompass facilities for parking, large and small dog areas and access to the San Gabriel River Horse and Bicycle Trails. There are no local community groups supporting the project.
Peck Water Conserv Master Plan	206	Amigos de los Rios, El Monte, City of	\$202,720		1	This grant request submitted by the City of El Monte and Amigos de los Rios is for Phase 2 of the master plan at Peck Water Conservation Park, a unique 200 acre quarry now serving as a water management & recreation facility. The area consists of two lakes in a figure 8 shape. A concept master plan was completed by Amigos in 2005. The elements of this proposed master plan build on the concept plan work and include master plan elements for water resources, habitat restoration, enhanced trails and recreation opportunities, sustainable development guidelines, and interpretive signage as well as a review of revenue generation opportunities for park operators and maintenance. The master plan will benefit from the proposed ALTA survey for the area.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Peck Water Conserv Park Habitat Restoration	205	Amigos de los Rios, El Monte, City of	\$2,080,000		1	This grant request was submitted by the by the City of El Monte and Amigo de los Rios to restore and enhance 35 to 60 acres within Peck Water Conservation Park specifically along the West perimeter of the North Lake and on the West perimeter of the South Lake of the Park. This area is under the jurisdiction of the Los Angeles County Department of Public Works - Watershed & Flood Maintenance Division. The project would begin with the creation of a restoration plant palette and ratification of a restoration plan based on master plan and appropriate authorities.
Planning for Phase 2 of the Duck Farm Project	106	Watershed Conservation Authority	\$25,000,000		1	This grant request was submitted by the Watershed Conservation Authority to include Phases 1A and 1B to provide design and construction of open space elements at the Duck Farm north of Avocado Creek to Valley Blvd. Phase 2 will extend the planning and implantation of the project to include those areas south of Avocado Creek and seek to continue the River Commons Promenade to San Jose Creek to the San Gabriel River Bike Trail.
Puente Creek & La Seda Restoration	107	Los Angeles County Flood Control District	\$150,000		1	Grant request submitted by the Los Angeles County Flood Control District for the development of a 13,000 square foot property using low impact development practices that incorporate native plant swales. Project will also serve as a recreational and educational resource for students and the community. Implementation requires successful negotiations of joint use agreements with the school district.
Restoration Sycamore Canyon South San Gabriel	108	Save our Community, INC. 501-C3	\$27,500		1	Grant request submitted by Save Our Community, Inc. for invasive removal of around located on 300 block of San Gabriel Blvd. and an old oil field area. Project includes riparian, stream channel and habitat restoration, signage improvements and protection from use by off road vehicles.
Rio Hondo Park	109	Watershed Conservation Authority	\$1,500,000		1	Grant request submitted by the Watershed Conservation Authority for development of 3 acres, located in the Whittier Narrows Recreation Area. Proposed park will add to the Emerald Necklace as a pocket park along the Rio Hondo. Project will provide low impact recreational opportunities, habitat restoration, water quality elements and trail access to the Rio Hondo in a park poor area with large number of children and families
Rio Hondo River West bank South San Gabriel	110	Save our Community, INC. 501-C3	\$36,000		1	Grant request submitted by Save Our Community Inc. for invasive removal, riparian, stream channel and habitat restoration and signage improvements. Proposed project consist of 7 acres and hopes to discourage use by off road vehicles.
Riparian/Scrub Raptor Field Restoration (WNNA)	111	Los Angeles County Department of Parks and Recreation	\$160,000		1	This grant request was submitted by the Los Angeles County Department of Parks and Recreation for the restoration of the Scrub Raptor Field at the Whittier Narrows Nature Center.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
River School	112	Friends of the Los Angeles River	\$0	Ineligible	Ineligible	Grant requested by Friends of the Los Angeles River. The goal of the River School is to build upon the success of our 2007 Long Beach education festival and River cleanup that brought over 550 students from 6 schools to the Willow Street Estuary. River School will add a two day workshop that will train teachers to incorporate watershed education into the classroom using FoLAR's teacher guide--a cross disciplinary guide that provides pre and post River visit lessons. The program will then conduct classroom outreach and brings students to the LA River and its tributaries on field trips to conduct hands-on active learning workshops that include water testing, biotic profiling, and community cleanups preparing students to become active and engaged leaders within their communities.
Royal Oaks Trail Extension Project	113	Duarte, City of	\$1,040,000		1	This grant request was submitted by the City of Duarte and will extend the 3-mile Royal Oaks Rail Trail to join with the San Gabriel River network. It will also connect with other facilities at Encanto Park, including access via the bridge to the San Gabriel River Bikeway. The proposed route will also call for reconfiguration of Las Lomas Avenue to eliminate parking on one side.
San Gabriel River Valley Boulevard Park	118	Watershed Conservation Authority	\$5,060,000		1	This grant request was submitted by the Watershed Conservation Authority to acquire a 5-acre property located on Valley Blvd. adjacent to the San Gabriel River in an area that is park-poor and has a high number of youth and families. A park will be built on this property with a design to include water quality elements and low impact recreational uses that would provide trail access to the San Gabriel River Trail. Public health elements would include a fitness zone, small walking paths, picnic areas and native habitat areas. The park would also include signage that would inform the visitor about the San Gabriel River, the Trail and the Watershed.
San Gabriel Canyon Invasive Plant Removal	114	Angeles National Forest	\$485,000		1	This grant request was submitted by Angeles National Forest to remove multiple invasive plant species in the San Gabriel Canyon using both mechanical and chemical treatments. This includes tamarisk, giant reed, tree tobacco and Spanish Broom. Focus will be on the riparian area (20 miles) and involves initial and follow-up treatment. Project will benefit federally threatened Santa Ana Sucker, migratory birds and state species of special concern including the Santa Ana Speckled Dace, Arroyo Chub, and southwestern Pond Turtle. Removal of invasive plants will also benefit visual, and recreation values for the area. Project will also include interpretive materials, including signs and pamphlets. NEPA has not yet been completed for project. There is some community support for this project.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
San Gabriel River confluence w/Cattle Cyn Improvement Project	124	Watershed Conservation Authority	\$1,000,000		1	This grant request submitted by the Watershed Conservation Authority will provide improvements on the portion of the confluence of the East Fork of the San Gabriel River with Cattle Canyon and its creek. This project will include a feasibility study, development of the site, interpretive and directional signage, habitat restoration, an outreach program utilizing the Southern California Consortium project and a study of the effectiveness of the outreach. This pilot project will be completed with the intent that it is replicable in other areas of the Angeles National Forest and the San Gabriel River Watershed. This project is a collaboration of the USFS, RMC, Sierra Club, Southern California Consortium, and the Upper San Gabriel Valley Municipal Water District with all of the partners allocating staff time to the project.
San Gabriel River Equestrian Staging Area/Trail	115	Bellflower, City of	\$1,300,000		1	Grant request submitted by the City of Bellflower for the acquisition of 3 parcels located in the City to allow for development of the SG River Equestrian Staging Area and Trail. Parcels are owned by one individual and the city is beginning acquisition negotiations.
San Gabriel River Trail extension to ARWP	116	Watershed Conservation Authority	\$3,000,000		1	Grant request submitted by the Watershed Conservation Authority for the design and development of an extension of the San Gabriel River Trail from its current end in Azusa to the Azusa River Wilderness Park, the parking lot and future trailhead at El Encanto.
San Gabriel River Trail Restoration Project	117	Pico Rivera, City of	\$340,000		1	Grant request submitted by the City of Pico Rivera for the restoration of SG River Trail to enhance access to the proposed Burke Street River Park Project while creating a direction connection to the recently completed Paseo del Rio Spreading Grounds Recreation Project. Project will result in 3 miles of bike/walking trails.
San Gabriel River: Watershed Improvement Program/Restore	119	San Gabriel MTS. Regional Conservancy	\$422,410		1	This grant request was submitted by the San Gabriel Mountain Regional Conservancy as a partnership between the SGMRC and the SGVMVCD to address recreational watershed issues and stewardship training for the region's youth. The project includes procurement of vitally needed composting public toilets for high use, sensitive areas of the River. Participants will conduct laboratory research, mentoring, and stewardship-education activities.
San Jose Creek Multiuse Study	120	Los Angeles County Flood Control District	\$500,000		1	Grant request submitted by the LA County Flood Control District to evaluate the feasibility of developing a multiuse project along the San Jose Creek. Purpose of the project is to treat and recharge stormwater from San Jose Creek and provide passive recreational opportunities.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Santa Ana Sucker Study San Gabriel Canyon	121	Angeles National Forest	\$110,000		1	This grant request submitted by Angeles National Forest includes a study of native fish in San Gabriel Canyon with an emphasis on Santa Ana sucker. The San Gabriel Canyon is occupied and designated critical habitat for the federally threatened Santa Ana sucker. This study will document population and habitat trends. It also supports populations of Santa Ana speckled dace and arroyo chub (state species of special concern). This information will help the FS identify potential impacts associated with recreation and other uses. In response, FS can develop and implement appropriate management actions and help protect future recreation opportunities. Project includes development of interpretive materials including signs and pamphlets. NEPA is not needed for the project.
Santa Fe Basin Gateway Nature Trail	122	Duarte, City of	\$386,000		1	This grant request is submitted by the City of Duarte with strong community support. The City of Duarte has received a grant from MTA to develop, in collaboration with the Los Angeles County Public Works, a bicycle path through the Santa Fe Dam basin area. This trail will benefit Duarte residents by providing direct access from Duarte to the San Gabriel River Bikeway. The RMC grant will provide native landscaping, interpretive signage, a nature loop trail, and other amenities.
Santa Fe Dam Campground Development	223	Los Angeles Department of Parks and Recreation, County of	\$1,575,136		1	Grant request submitted by the County of Los Angeles Department of Parks and Recreation for enhancements of the Santa Fe Dam campground. Enhancements include installation of fire rings, an amphitheater, seating, grading, and providing native landscaping throughout the campground. The project also includes the development of an interpretive site displaying educational signage and low impact interactive equipment to interpret historical " Speed of Light" experiments by Einstein and Michelson at the turn of the Century.
Schabarum Blueline Stream Restoration Project	224	Los Angeles Department of Parks and Recreation, County of	\$2,216,140		1	This grant request was submitted by the County of Los Angeles Department of Parks and Recreation for blue line stream restoration, bank naturalization, removal of excess concrete and invasive/non-native plant species, day lighting, native plantings, habitat restoration and interpretive signage.
Schabarum Park Equestrian Bridge Development	123	Los Angeles Department of Parks and Recreation, County of	\$288,000		1	This grant request was submitted the County of Los Angeles Department of Parks and Recreation. This project will replace a failing culvert and install a new bridge over a tributary to San Gabriel creek. The existing culvert and soil-retaining structure (wooden) will be removed and a prefabricated bridge will be installed with new poured-in place wing-walled footings. There is strong local community support for this project.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
South Gate Riparian Restoration Development	125	Watershed Conservation Authority	\$550,000		1	This grant request was submitted by the Watershed Conservation Authority. As an important component of the South Gate Riparian Restoration project the goals for this project include water quality, habitat restoration and public access (along the bike trail only). It also includes opportunities for retaining regional storm runoff on site, and improving the quality of water that is discharged into the LA River. This project supports the goals of the LA River Master Plan by providing both access to the trail along river as well as developing riparian habitat along the river. This project would also include directional and interpretive signage.
Street End Park, Compton	242	Compton, City of	\$150,000		1	Grant request submitted by the City of Compton for converting the existing street right of way to open space and providing access to the existing bike path and multi-purpose trail from the surrounding neighborhoods. A total of 13 locations will be developed along the Compton Creek and each location will include a variety of amenities including native landscaping, walkways, benches, new fencing, water fountains, and educational signage. Sites will incorporate Best Management Practices (BMPs) and all paved areas will be replaced with permeable surfaces.
Thompson Creek SG: Acquire, Restore and Develop	228	League of Women Voters, Claremont	\$7,630,000		1	This grant request was submitted by the League of Women Voters for a feasibility Study and Planning (Phase 1), Acquisition or Conservation Easement, Restoration, and Development (Phase 2) of the Thompson Creek Water Spreading Grounds (120.7 acres), potentially an extension of the Claremont Wilderness Park. This project would preserve this land as open space, establish a wetland, or riparian area to provide wildlife habitat and mitigate lost cienegas, and be open to the public for recreational and educational use. Water conservation and management is a top priority, including possible future waste water reclamation.
Treasure Island Renovation Project	126	Downey, City of	\$2,000,000		1	Grant request submitted by the City of Downey for the improvements to Treasure Island Park. Utilizing the community organizing and support that the Unity Community Group has completed the project will provide construction documents and improvements to the park. The project will include security lighting, walking trail, picnic areas, small play area, benches and security lighting, turf renovation and replacement of the irrigation system to utilize reclaimed water. The four acre passive park is along the Rio Hondo River Trail and the improvements create a safe walking trail through the park.
Vincent Lugo Park-San Gabriel	233	San Gabriel, City of	\$525,409		1	This grant request submitted by the City of San Gabriel, with significant community support, is designed to preserve, expand and revitalize the park's open space and develop better access to passive and active recreational opportunities. This project's objectives include: new trails, preserving a cultural landmark, and improving park space for picnics, recreation and community events. It will also include visitor-serving amenities, such as educational and interpretive features, and will help to educate about the importance of the Alhambra Wash as part of the San Gabriel River Watershed.

RIVER/TRIBUTARY PARKWAYS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Watershed Trail Through History	128	San Gabriel MTS. Regional Conservancy	\$75,000		1	Grant request submitted by the San Gabriel Mountains Regional Conservancy in the amount of \$75k for collaborative planning and design of an innovative trail concept. One half mile trail enhanced by comfort level, easy access by all ages and cultures with 4 language interpretation/education of watershed history in the region.
Watts Gateway Phase II	129	Long Beach, City of	\$1,800,000		1	Grant request submitted by the Harbor/Watts Economic Development Corporation for Creekside enhancements at the intersection of Imperial Highway and Central Avenue in Watts. These Compton Creek enhancements include interfaces for a future connection to the Willowbrook portion of the Compton Creek Bike Trail, connections to the existing "Welcome to Watts" signage, and a new ¼ mile bike trail segment between the Watts Gateway north to Lanzit Avenue. This improvement will also acknowledge the Compton Creek which flows diagonally beneath the intersection and will provide connections between the Creek improvements and Central Avenue, a major commercial corridor which runs parallel to the Creek.
Watts TowersWatts GreenStreets Dev.	130	Harbor/Watts Economic Development Corporation	\$1,225,000		1	Grant request submitted by the Harbor/Watts Economic Development Corporation for Creekside enhancements at the intersection of Imperial Highway and Central Avenue in Watts. These Compton Creek enhancements include interfaces for a future connection to the Willowbrook portion of the Compton Creek Bike Trail, connections to the existing "Welcome to Watts" signage, and a new ¼ mile bike trail segment between the Watts Gateway north to Lanzit Avenue. This improvement will also acknowledge the Compton Creek which flows diagonally beneath the intersection and will provide connections between the Creek improvements and Central Avenue, a major commercial corridor which runs parallel to the Creek.
West San Gabriel River Parkway-Phase 3 Development	127	Lakewood, City of	\$1,824,267		1	This grant request submitted by the City of Lakewood will provide regrading, establish riparian flora, native grasses and add a 2,900 ft. ADA trail along Lakewood's remaining 11 acres of underdeveloped riverside land. Plans also include the installation of 525 feet in hardscape pathways through a major community services facility that will link the new greenbelt with the existing 19 acres of the West San Gabriel River Parkway Nature Trail. The addition of this new trail development will create a mile and one-half of continuous greenbelt bordering Lakewood's western side of the river. There is some local community support for this project.
West San Gabriel River Walk	132	Harbor/Watts Economic Development Corporation	\$2,288,143	1		This grant request was submitted by the City of long Beach, Department of Parks, Recreation and Marine to develop unused open space next to the western levee of the San Gabriel River into a passive park with pathways, and native landscaping.

## MOUNTAINS, HILLS, AND FOOTHILLS PROJECTS

Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Acq. South Hills Wilderness Park	28	Glendora Community conservancy	\$19,000,000		1	Request submitted by Glendora Community Conservancy for the acquisition of the South Hills Wilderness Park to allow the Conservancy ability to protect, restore and maintain over 200 acres of natural open space surrounded by sprawl.
Acq/Rest. Upper San Jose Watershed	6	San Gabriel MTS. Regional Conservancy	\$2,100,000		1	Grant request by the San Gabriel Mtns. Regional Conservancy for the acquisition & restoration of 3-40 acre properties for watershed protection on the east flank of Palmer Canyon of the Upper San Jose Creek Watershed.
Acquisition Monrovia Hillside Wilderness Update: RMC 3204	10	Monrovia, City of	\$1,236,000	1		Grant request from the City of Monrovia to acquire a 40-acre lot located on Lower Clamshell Truck Trail in the foothills of Monrovia, CA. Acquisition is essential for completion of the Wilderness Preserve due to its status on the Federally Endangered plant Astragalus braunton. Management Plan is currently being prepared for management of the Preserve and additional funds will be available (80k) from 2000 bond measure for maintenance.
Aera Tonner Biological Corr.	27	Wildlife Corridor conservation Authority	\$10,000,000		1	Request submitted by the Wildlife Corridor Conservation Authority for the acquisition of 2,935 acres of open space owned by Aera Energy to preserve a substantial portion of the Puente- Chino Hills Wildlife Corridor between protected public open space located east and west of the property. Acquisition will protect at least 10 target species in Green Visions Plan, is within a LA County Significant Ecological Area, and will protect many unique habitat types. Extensive trails for low-impact recreation will also be included.
Arrastre Cyn Acq.	30	USDA Forest Service	\$357,500		1	Grant request submitted by USDA Forest Service for the acquisition of an 120 acre L-shaped parcel located within the Angeles National Forest. Parcel is transected by Arrastre Creek, a perennial stream that contains habitat for threatened, endangered and sensitive species. Acquisition contributes to land linkage with the E. Santa Clarita-Soledad Canyon Project and will lead to institutionalizing protection of South Coast wildlife corridors under Missing Linkage Project.
Azusa Romvary Acq.	1	Azusa, City of	\$8,035,000		1	Grant request submitted by the City of Azusa for acquisition of Romvary property and development of a comprehensive plan to include the continued use of equestrian facilities on site. Planning includes connectivity opportunities to Fish Canyon and El Encanto, south to Santa Fe Dam.
Azusa Vasquez Acq.	2	Azusa, City of	\$4,017,000		1	Grant request submitted by the City of Azusa for acquisition of Vasquez property to link open space properties to the new WCA/RMC Azusa River Wilderness Park/El Encanto. Vasquez property will develop trail system through southern foothills, allow connectivity from city neighborhoods, and provide interpretive opportunities of natural assets including the river, foothills and urban vistas.
Bluebird Acq Ph 3	32	Glendora Community conservancy	\$1,950,000		1	Grant request submitted by the Glendora Community Conservancy for the remaining acquisition phase of the Bluebird Ranch in Glendora. Completion of purchase is vital for this property which includes wildlife and biodiversity corridors.

<b>MOUNTAINS, HILLS, AND FOOTHILLS PROJECTS</b>						
<b>Project Name</b>	<b>Excel ID #</b>	<b>Applicant</b>	<b>Total RMC Funds</b>	<b>Tier 1</b>	<b>Tier 2</b>	<b>Project Description</b>
Bradbury Woodlands Acq.	33	San Gabriel MTS. Regional Conservancy	\$5,000,000		1	Grant request submitted by the San Gabriel Mtns. Regional Conservancy for the acquisition of the last of 100+ acre Bradbury Woodlands and Trails located in the foothill wildlife corridor.
California Condor Habitat Restoration	18	Angeles National Forest	\$38,000		1	Grant request submitted by the Angeles National Forest for the enhancement of California Condor habitat through obliteration of pullouts, revegetation, installation of garbage receptacles, and interpretive signs. Project is located along areas of Santa Clara Divid Road in the Angeles Nat'l Forest and improvements will prevent condor chick mortality from garbage consumption. NEPA has been initiated, CEQA not required.
Development of Milton & Harriet Recreation Area	3	Sierra Madre, City of	\$25,000	1		Grant request by the City of Sierra Madre for development of new passive park which embraces the city's CA native feel with its Gabrielino Indian history. Landscape is designed with low maintenance and drought tolerant characteristics. Project has also received matching funds.
Endangered Brodiaea Protection	34	Glendora Community conservancy	\$1,523,000		1	Grant request submitted by the Glendora Community Conservancy for the acquisition of 7 acres for buffer property to the Brodiaea located in the Glendora foothills. Key habitat link in the Foothills Wildlife Corridor and protection of the Brodiaea, an endangered species.
Cha"not Preserve Acq and Planning	7	Signal Hill, City of	\$1,130,000		1	Grant request submitted by City of Signal Hill for the acquisition and planning of 26 acres of open space, shared with oil production, on north facing hillside of Signal Hill. Nature preserve is planned to provide open space and hiking paths that connect with existing parks and housing. Acquisition discussions underway.
Fryer Cyn Acq	19	USDA Forest Service	\$356,500		1	Grant request submitted by the USDA Forest Service for the acquisition of approx. 160 acres, rectangle shaped parcel located within the Angeles National Forest. Parcel is adjacent to and south of Soledad Canyon Road and will contribute to a land linkage with the E. Santa Clarita-Soledad Canyon Project and to institutionalize protection of South Coast wildlife corridors under the South Coast Missing Linkage Project.
Gordon Mull Acq.	35	Glendora Community conservancy	\$8,000,000		1	Grant request submitted by the Glendora Community Conservancy for the acquisition of approximately 42 acres of San Gabriel foothill habitat for the preservation of existing coastal sage scrub and oak/woodland habitats. Site is a former Tongva Indian gathering site and link to Bluebird Ranch Preserve and wildlife corridor with regional implications.
La Verne Open Space ANF Connection: Anabi Property Acquisition	36	La Verne Land Conservancy	\$1,300,000		1	Grant request submitted by the La Verne Land Conservancy for the acquisition of 33 acres located in North La Verne, a property privately owned by the Anabi family. Property is adjacent to parcels acquired by the City to be managed as open space. Acquisition will allow the City to develop and manage a new trail connection leading from the lower elevation properties to the Sunset Ridge Mountain Road.
Managerial Plan for La Verne Wilderness Area	37	La Verne, City of	\$56,000		1	Grant request submitted by the City of La Verne to hire a consultant to develop a Master Plan for 358 acres of open space. Master Plan will determine the use of this open space.

<b>MOUNTAINS, HILLS, AND FOOTHILLS PROJECTS</b>						
<b>Project Name</b>	<b>Excel ID #</b>	<b>Applicant</b>	<b>Total RMC Funds</b>	<b>Tier 1</b>	<b>Tier 2</b>	<b>Project Description</b>
Montebello Hills Park	8	Sierra Club Angeles Chapter	\$0		1	Grant request submitted by the Sierra Club Angeles Chapter for the acquisition of 480 acres of Montebello Hills to provide for low-impact recreation. Ultimately, site is envisioned as coastal sage scrub preserve to sustain California gnatcatcher population, biological connections to Rio Hondo, hiking trails, interpretive center, picnic sites, nature trails and other amenities.
Mountain yellow-legged frog habitat restoration	9	USDA Forest Service	\$62,000		1	Grant request submitted by the USDA Forest Service to increase aquatic habitat and range for yellow-legged frog by installing a small dam to exclude predatory introduced trout on little Rock Creek in the San Gabriel Mountains. Non-native trout will be removed by electroshocking and frogs will be reintroduced into this reach. Project combines efforts of Forest Service, US Geological Survey and Dept. of Fish & Game.
Mt Gleason Acquisition	20	USDA Forest Service	\$54,500		1	Grant request submitted by the USDA Forest Service for the acquisition of approx. 27 acres located near Mt. Gleason within the Angeles National Forest. Parcel contains a rare high elevation perennial spring and hiking trail.
Placerita Canyon Open Space Acquisition	21	Santa Clarita, City of	\$500,000			Grant submitted by the City of Santa Clarita for purchase of 140 acres of open space. Project is deemed ineligible for grant funding because the project is outside of the RMC territory.
Puente Hills Community Access Barn Development	214	Puente Hills Landfill Native Habitat Preservation Authority	\$350,000		1	Grant submitted by the Puente Hills Landfill Native Habitat Preservation Authority for development of community access improvements to the barn structure located at Sycamore Canyon Park. Design elements include refurbishment of an interior work space for Rangers, including restroom facilities and storage for tools, meeting room, work space and rest stop for volunteer trail patrol members and any other organized community activity that is appropriate.
Puente Hills Visitor Office	215	Puente Hills Landfill Native Habitat Preservation Authority	\$95,000		1	Grant request submitted by the Puente Hills Landfill Native Habitat Preservation Authority for the development of public access improvements at Sycamore Canyon Trailhead, part of 4000 acre preserve. Design includes new office space through purchase of prefabricated building, restrooms, meeting facilities and interpretive signage for visitors and hikers.
Puente Hills Wildlife Corridor: Ferrero	11	Puente Hills Landfill Native Habitat Preservation Authority	\$1,000,000		1	Grant request submitted by the Puente Hills Landfill Native Habitat Preservation Authority for the acquisition of 23 acres of open space to preserve and protect the existing Puente Hills Wildlife Corridor. Acquisition will protect several migratory species and federally listed CA gnatcatcher found on adjacent property.
Puente Hills Wildlife Corridor: Seirafi	12	Puente Hills Landfill Native Habitat Preservation Authority	\$1,000,000		1	Grant request submitted by the Puente Hills Landfill Native Habitat Preservation Authority for the acquisition of 36 acres of open space to preserve and protect the existing Puente Hills Wildlife Corridor. Acquisition will protect migratory species, cactus wren and state protected coastal sage scrub. Proposed project would also provide access for low impact recreation as the regional LA County Schabarum Trail runs through the length of the property.

<b>MOUNTAINS, HILLS, AND FOOTHILLS PROJECTS</b>						
<b>Project Name</b>	<b>Excel ID #</b>	<b>Applicant</b>	<b>Total RMC Funds</b>	<b>Tier 1</b>	<b>Tier 2</b>	<b>Project Description</b>
Puente Hills Wildlife Corridor: Tseng	13	Puente Hills Landfill Native Habitat Preservation Authority	\$500,000		1	Grant request submitted by the Puente Hills Landfill Native Habitat Preservation Authority for the acquisition of 57 acres of open space to preserve and protect the existing Puente Hills Wildlife Corridor and protection of extensive oak woodland habitat. Proposed project would also provide access for low impact recreation, is located within a Significant Ecological Area, and is recognized as a movement corridor in the Missing Linkages Report.
Robert Reed Ranch Preserve Acquisition Project	39	Riverlands Preservation Trust of the Rio San Gabriel (Rio Trust), The	\$4,743,300		1	Grant request submitted by the Riverlands Preservation Trust of the Rio San Gabriel (Rio Trust) for the acquisition of 168 acres of savannah combined with Coast Live Oak, and Southern CA black walnut woodlands. Project aims to provide relief from urban density, encroachment by development, drought degradation, and woodland native species. Project recently fell out of escrow and further information is required before acquisition process moves forward: appraisal, title report, long-term management plan.
San Antonio Creek, 1898 Kerkhoff Ranch Acquisition	40	San Gabriel MTS. Regional Conservancy	\$7,500,000		1	Grant request submitted by the San Gabriel Mtns. Regional Conservancy for the acquisition of a historic ranch consisting of 23+ acres adjacent to the San Bernardino Nat'l Forest, homes, natural trails, roads and camp sites. Matching funds for this project are currently pending, and other factors are unclear including ownership, appraisal and habitat value of land.
San Antonio Spreading Grounds Multiple Benefits	41	Three Valleys Municipal Water District	\$25,550,100		1	Grant request submitted by Three Valleys Municipal Water District for the acquisition of the San Antonio Spreading Grounds for use as a natural habitat, open space and natural spreading grounds- consistent with its current use. Project would serve to significantly protect the local watershed.
Sand Canyon Connector-Trail Development	22	Santa Clarita, City of	\$1,091,948		1	Grant request submitted by the City of Santa Clarity for the Sand Canyon connector trail development. Project will provide an unpaved multi-use trail from the Santa Clara River to the Angeles Nat'l Forest along Sand Canyon Road. Approximately 1 mile of the 3.1 mile connector has been developed and is currently used as recreational trail. Connecting Santa Clara River with the Forest will improve and enhance existing recreational opportunities. Applicant has received matching funds for this project.
Santa Clara River Headwaters Acquisitions	42	Desert and Mountain Conservation Authority	\$900,000		1	Grant request submitted by the Desert and Mountain Conservation Authority in collaboration with the SMMC and MRCA for the acquisition of 206 parcels totaling approximately 4311 acres located in the Upper Santa Clara River watershed and mostly within LA County Significant Ecological Areas. Further information is required including, willing seller, title report and an environmental assessment.
Santa Clarita Open Space Acquisition Project	43	Riverside Land Conservancy	\$1,000,000		1	Grant request submitted by the Riverside Land Conservancy for the acquisition of 812 acres for the preservation of open space in the east Santa Clarita/Soledad Canyon Area and protection of wildlife corridor between two segments of Angeles Nat'l Forest. Project includes collaboration between the City, Santa Clara River Watershed Conservation Authority, SMMC, US Forest Service, Vulcan Materials Corp. and TNC.

<b>MOUNTAINS, HILLS, AND FOOTHILLS PROJECTS</b>						
<b>Project Name</b>	<b>Excel ID #</b>	<b>Applicant</b>	<b>Total RMC Funds</b>	<b>Tier 1</b>	<b>Tier 2</b>	<b>Project Description</b>
Sassone 'Natureland' Acquisition	44	Glendora Community conservancy	\$3,000,000		1	Grant submitted by the Glendora Community Conservancy for the acquisition of approx. 7 acres for preservation of archaeological site, a Tongva tribal harvesting area where many artifacts have been excavated by CSU Fullerton, UCLA and Glendora Museum, among others. Project is an existing oak/walnut woodland habitat.
Skyline Trail/Rio Hondo Staging Area Development	14	Los Angeles Department of Parks and Recreation, County of	\$90,000		1	Grant request submitted by County of Los Angeles for site improvements to include landscaping and irrigation, horse water troughs, picnic tables/benches, hitching trails and bridal fencing to Skyline Trail/Rio Hondo Staging Area.
Soledad Creek Acquisition	23	USDA Forest Service	\$45,500		1	Grant request submitted by the USDA Forest Service for the acquisition of 15 acres located in Angeles Nat'l Forest. Parcel is transacted by Soledad Creek, a perennial stream and contains habitat for threatened, endangered and sensitive species. Acquisition will contribute to land linkage with the East Santa Clarita-Soledad Canyon Project and to institutionalize protection of South Coast wildlife corridors under the South Coast Missing Linkage Project.
Soledad Cyn CAPP Acquisitions	4	Mountains Recreation and Conservation Authority	\$900,000	1		Grant request by the Mtns. Recreation and Conservation Authority as part of the Angeles Linkage Conceptual Area Protection Plan (CAPP). CAPP was prepared as a joint effort including local and state agencies outlining key areas for protection based on wildlife movement and habitat quality. Application addresses 130 parcels covering 3842.55 acres.
South Hills Backyard Habitat	45	Glendora Community conservancy	\$150,000		1	Grant request submitted by the Glendora Community Conservancy for the enhancement of approx. 25 acres of natural hillside area, including development and restoration of wildlife habitat, eradication of invasive plants and replanting of compatible native plants. Further information needed regarding site control and long-term management including invasive plant removal and habitat restoration.
Summitridge Park Southern Trail Development Project	24	Diamond Bar, City of	\$64,729	1		Request submitted by City of Diamond Bar for development of Summitridge Park Trail. Amenities include trail clearing, decomposed granite path, two rest stops w/benches, educational and interpretive signs and native planting.
Sycamore Canyon Trail Phase IV Development Project	25	Diamond Bar, City of	\$80,255	1		Request submitted by City of Diamond Bar for restoration and preservation of threatened natural habitat to 1.1 acre area of open space taken over by residents. They've built a soccer field, par course and movie screen resulting in loss of natural growth. Trail will be include low impact exercise stations, decomposed granite and other amenities include benches, trash bins, and educational signage.

<b>MOUNTAINS, HILLS, AND FOOTHILLS PROJECTS</b>						
<b>Project Name</b>	<b>Excel ID #</b>	<b>Applicant</b>	<b>Total RMC Funds</b>	<b>Tier 1</b>	<b>Tier 2</b>	<b>Project Description</b>
Turnbull Canyon Trailhead	229	Puente Hills Landfill Native Habitat Preservation Authority	\$80,500		1	Grant request submitted by the Puente Hills Landfill Native Habitat Preservation Authority for community access improvements for the public located at Turnbull Canyon Trailhead, as part of the 4000 acre Puente Hills Preserve. Design elements include improvements to an existing trail access point including a parking lot, kiosk with interpretive panel, and native plant restoration. This trail access is adjacent to Turnbull Canyon Creek.
Una Lake Wetlands Acquisition & Restoration 1	15	Antelope Valley Conservancy	\$105,000	1		Grant request submitted by Antelope Valley Conservancy to preserve, restore and establish further restoration of 147 acres of high quality Rift Zone of Una Lake, adjacent wetlands/uplands, and spring fed waters. Proposed project begins needed restoration and prepares for Phase 2 acquisition of additional 500 acres to Barrel Springs. Grant provides 2 years monitoring after which mitigation banking will fund ongoing stewardship.
Una Lake Wetlands Acquisition & Restoration 2	16	Antelope Valley Conservancy	\$1,282,700		1	Grant request submitted by the Antelope Valley Conservancy to acquire and establish for ongoing restoration, enhancement and preservation of an additional 500 acres of high quality Rift Zone Wetlands, uplands and spring-fed headwaters from southwest of Una Lake to Palmdale's Riparian Preserve and beyond to Barrel Springs. This \$1.29 million acquisition grant will seed funding from NAWCA, Audubon, TPL and other partners to purchase conservation easements and fee title for critical, high quality wetlands and watershed resources. It will preserve wildlife corridors linking the Angeles forest to Los Padres Forest, and connect and create new trails and low impact recreation assets.
Van Tassel Nature Sanctuary	29	San Gabriel MTS. Regional Conservancy	\$13,000,000		1	Grant request submitted by the San Gabriel Mountains Regional Conservancy for the acquisition of 300 acres of existing open space in the San Gabriel Mountain Foothills, north of Duarte and west of Azusa for permanent watershed protection, open space and nature sanctuary preserve. Further information needed regarding restoration. Issues on this project involve purchase agreement and appraisal.
Vasquez Conservation, Ed & Rec Center Acquisition	17	San Gabriel MTS. Regional Conservancy	\$4,500,000		1	Grant request submitted by the San Gabriel Mountains Regional Conservancy for the acquisition of 40 acres for the creation of the Vasquez Conservation, Education and Recreation Center. Amenities include outdoor education, training, multi-cultural and historical agriculture and Garcia Trail.
Wagonwheel Acquisition & Restoration	5	Angeles National Forest	\$2,358,500		1	Grant request submitted by the Angeles National Forest for the acquisition of an irregularly shaped parcel containing approximately 138 acres and is located within the Angeles National Forest. The parcel is adjacent to Aliso Canyon Road and Angeles Forest Highway and is known as the Wagonwheel Ranch. The parcel is bisected by the perennial Alisio Creek. Wetland and riparian habitat are abundant on this parcel.

<b>MOUNTAINS, HILLS, AND FOOTHILLS PROJECTS</b>						
<b>Project Name</b>	<b>Excel ID #</b>	<b>Applicant</b>	<b>Total RMC Funds</b>	<b>Tier 1</b>	<b>Tier 2</b>	<b>Project Description</b>
West Coyote Hills Acquisition	131	Friends of Coyote Hills	\$10,420,000		1	Grant request submitted by the Friends of Coyote Hills for the acquisition of land owned by Chevron located in West Coyote Hills, with conveyance to a conservation agency or organization. Purpose is to protect and preserve this unique natural resource for the underserved areas of North Orange County and South LA County.
White Rock Acquisition	26	USDA Forest Service	\$745,500		1	Grant request submitted by USDA Forest Service for the acquisition of approximately 11 acre located within the Angeles National Forest. Parcel is adjacent to Soledad Creek, a perennial stream that contains many types of habitat for threatened, endangered and sensitive species. Project contributes to land linkage with East Santa Clarita- Soledad Canyon Project and promotes protection of South Coast wildlife corridors under South Coast Missing Linkage Project.
Wildwood Canyon Preserve Acquisition Project (SD)	47	Glendora, City of, San Dimas, City of	\$25,500,000	1		Grant submitted jointly by the Cities of San Dimas and Glendora for the acquisition of 17 parcels totaling approx. 509.5 acres of undeveloped hillside open space to preserve the natural habitat and provide low-impact recreation. Site includes habitat linkages for sensitive and endangered species, five permanent water sources, water recharge, open space and a critical corridor buffer between the urban edge and the Angeles Nat'l Forest.
Wildwood Nature Reserve Acquisition (SGMRC)	48	Glendora Community Conservancy	\$28,000,000		1	Grant request submitted by the Glendora Community Conservancy for the acquisition of 440 acres of existing open space in San Gabriel Mtn. Foothills, northeast of Glendora, for permanent watershed protection, open space and nature sanctuary preserve. Open space serves as coastal sage scrub for sensitive species and buffer property between highly urbanized areas and the Angeles National Forest in eastern LA County. Seller is committed to City of San Dimas project.

## URBAN LANDS PROJECTS

Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
114th Street Park-South LA	247	Trust for Public Land	\$601,000	1		Grant request submitted by the Trust for Public Land in collaboration with Heal the Bay and Grant Housing and Economic Development Corporation for the acquisition and development of a pocket park located in South Los Angeles. The project will transform a blighted vacant lot into a place for rest, relaxation and recreation as well as a local meeting place for community groups. The park will be located in the heart of one of Los Angeles' densest and poorest neighborhoods and will provide a safe place for families living in overcrowded circumstances to exercise, participate in community and cultural events and enjoy a natural native landscape.
1440-2508 West Blvd. Park Development	137	Los Angeles Neighborhood Land trust	\$255,164		1	Grant request submitted by the Los Angeles Neighborhood Land Trust, a non-profit organization, for the creation of a new .51 acre pocket park on a piece of LA City surplus property located in a park poor neighborhood. Proposed project includes a new play area, picnic/seating area with overhead shelter, walkway, outdoor fitness equipment, landscaping and fencing.
1811 Eastlake Avenue-LA	138	Los Angeles Neighborhood Land trust	\$270,360		1	Grant request submitted by the Los Angeles Neighborhood Land Trust, a non-profit organization for the creation of a new park on a piece of LA City surplus property in a park poor and high crime neighborhood. A new play area, outdoor fitness equipment area, trees, cultural/art piece, landscaping, fencing and gates would be provided. Has flooding issues that could be addressed in the design.
5863 Wall Street Park Development	139	Los Angeles Neighborhood Land trust	\$107,497		1	Grant request submitted by the Los Angeles Neighborhood Land Trust, a non-profit organization for the creation of a new .12 acre pocket park on a piece of LA City surplus property located in a park poor neighborhood. Proposed project includes a new play area, picnic/seating area with overhead shelter, walkway, outdoor fitness equipment, landscaping and fencing.
98th Street Park-South LA	140	Watershed Conservation Authority	\$300,000		1	Grant submitted by the WCA for a pocket park in South LA utilizing DWP right of way. Project includes passive park features. WCA is in discussions with DWP to use this site as pilot project.
ABC Sr. Hsng. Development-Cerritos	142	Cerritos, City of	\$1,750,000		1	Grant request submitted by the City of Cerritos for construction of a 4 acre park as part of an affordable senior housing community and senior recreation center for individuals 55 or older. Proposed project is in collaboration with the ABC Unified School District and will include the remodeling of an existing building to accommodate a kitchen/warehouse facility for student lunch preparation and the remodel of an existing building to accommodate administrative offices.
Almanson Park Lakes Restoration-Alhambra	144	Alhambra, City Of	\$845,000		1	Grant request submitted by the City of Alhambra for reconstruction of the existing three man-made lakes, including dredging, relining, and concrete repairs. Work to also include the installation of the new lake plantings around the perimeter and interior of the lakes, which will restore and upgrade natural habitat for various water fowl, amphibious animals and fish.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Artesia Historical Site-Bike Trail Development	145	Artesia, City of	\$122,094		1	Grant request submitted by the City of Artesia for the development of the bike trail component of the Artesia Historical site. Project includes accent and asphalt paving, a masonry wall, a bike locker and trellises.
Artesia Park Walking Track Development	146	Artesia, City of	\$115,267		1	Grant request submitted by the City of Artesia for the design and development of a walking track in Artesia Park. The track is to be developed to encircle the baseball fields and to include mileage designations.
Brea Rails to Trails	147	Brea, City of	\$350,000		1	Grant request submitted by the City of Brea for a development of a dual tread pedestrian/bicycle trail that will traverse the city from east to west for 4 miles utilizing abandoned railroad right of ways, flood control channels, city property and easements. The 50 acre trail will provide access to a safe route and an alternative to motor vehicle transportation, reduce traffic on nearby streets, offer health and fitness benefits and overall urban relief through passive activity, protecting habitats for sensitive plant and animal species and provide future connectivity to regional trails. Scope of work includes acquisition, design and construction of the dual trail, pedestrian crossings, interpretative components and landscaping.
Camp Liberty Restoration	149	Cerritos, City of	\$610,000		1	Grant request submitted by the City of Cerritos for its large group picnic facility at Liberty Park called Camp Liberty. Camp liberty is used primarily for large family gatherings and can accommodate up to 350 picnickers. In recent years, Liberty Park has been remodeled into a state of the art park, however the improvements have yet to include Camp Liberty. Since Camp Liberty is 18 years old, the City of Cerrito is set to renovate the shelter by adding new security fencing, barbeques, a solid roof structure, tables, state of the art stage and sound and enhance lighting.
Canyon Institute Community Service Mobile, The	227	California Resource Connections, inc.	\$75,000	Ineligible	Ineligible	Located in the City of Azusa, California Resource Connections, Inc. and California Conservation Corps are working with the WCA to develop a green resource center, known as "The Canyon Institute" as part of Azusa River Wilderness Park the grant request includes the purchase of an environmentally friendly vehicle which is not an eligible under the grant program.
Centralized Water Conserving	151	Whittier, City of	\$121,000		1	Grant request submitted by the City of Whittier for upgrading various parks' irrigation systems for connection to the City's centralized irrigation control system. The City already owns the software and radio hub, and this project would provide for constructing the hardware improvements necessary to connect the parks to the centralized control system. Project would greatly increase the City's water conservation efforts by applying irrigation at the evapo-transpiration rate and automatically shutting down the system if there are broken valves, heads or lines, or in the event of rain.
Chesterfield Square New Park Dev.	153	Los Angeles Neighborhood Land trust	\$143,444		1	Grant submitted by the Los Angeles Neighborhood Land Trust to create a new park on a piece of surplus LA City property in a park poor neighborhood. A new play area, trees, landscaping, walkway, fencing and gates would be provided.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Citrus Regional Bikeway Improvements SGV	155	Watershed Conservation Authority	\$0		1	Grant submitted by the Watershed Conservation Authority to improve and develop portions of the Citrus Bikeway. MTA has designed and published a plan as well as given out a number of grants for the bike path to various cities. This bikepath as planned runs from Claremont to Azusa/Duarete to connect to the San Gabriel River Trail. While there have been some grants there needs to be planning to coordinates these efforts and assess the gaps and connections.
City of Lynwood Pocket Parks	156	Lynwood, City of	\$1,140,000		1	Grant request submitted by the City of Lynwood for the creation of 8 new open spaces within walking distance of each other and 50 feet from residential areas which will also provide access to Metro bus lines. Parks are within a few block radius and link to existing Meadows and Rose Parks. Partners include Lynwood Unified School District, Cal Trans and an artist who will create educational interpretive bilingual (Spanish/English) elements on natural, cultural history and watershed stewardship.
City to River Nature Walk Loop Development	157	South El Monte , City of Amigos de los Rios	\$380,360		1	Grant request submitted jointly by the City of South El Monte and Amigos de Los Rios, a non-profit organization, for the creation of a 5.6 mile walking trail to loop around the perimeters of the Civic Hall Complex and the Shively School. Amenities include native trees and shrubs, decomposed granite and concrete pathways, vegetated swales, water fountains, benches, interpretive signage, and exercise stations. The City proposes to use reclaimed water for irrigation along the trail.
Colorado Lagoon Restoration	159	Long Beach Department of Parks, Recreation and Marine, City of	\$9,792,320		1	Grant request in the amount of \$9.7 million submitted by the City of Long Beach for the restoration of Colorado Lagoon. Lagoon consists of a 28.3 acre tidal lagoon in the middle of a suburban neighborhood, hosting sensitive estuarine habitat, providing public recreation, and retaining and conveying storm flows. Several factors causing water and sediment contamination include the fact that it is surrounded by residential neighborhoods, a golf course, and is located in a highly urbanized watershed.
Compton Creek Bike Trail: Willowbrook	75	Los Angeles and San Gabriel rivers Waterched Council	\$695,000		1	Grant submitted by LASDRWC to develop a toolkit for focusing on segments of regional trails and building them with amenities that would suit users that would otherwise be disconnected from using these trails. Increased use of trails would support policy initiatives that would build regional trails throughout LA County.
Coyote Creek Watershed Improvements	161	Watershed Conservation Authority	\$0		1	Grant submitted by the Watershed Conservation Authority for implementation of the Water Quality and Water Conservation improvement projects within the Coyote Creek Watershed. Those identified in the San Gabriel River Corridor Masterplan, the Coyote Creek Watershed Management Plan and others.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Coyote Creek Watershed Plan Implementation	164	California Resource Connections, inc.	\$100,000		1	Grant request submitted by the California Resource Connections to implement the Coyote Creek Watershed Management Plan. To ensure maximum benefit from the Watershed Plan and to capitalize on the stakeholder interest, CRC proposes to coordinated amongst watershed partners to prioritized and help develop the projects that would otherwise be overlooked. The outcome would be additional shelf-ready projects, taken from the concepts outlined in the watershed plan.
Development of California Native Garden	165	Long Beach, Department of Parks, Recreation and Marine, City of	\$368,320		1	Grant request submitted by the City of Long Beach Parks, Recreation and Marine for the development of 31,500 sq. ft. California native garden that will include dense perimeter plantings for noise abatement and privacy. Plant materials will reflect the wide selection of natives used by landscape architect Ralph Cornell when the historic landmark property was re-landscaped in the 1930s. Access to the garden will be by meandering, stabilized decomposed granite pathways, encouraging passive recreation. Existing dry wash will be upgraded to enhance groundwater filtration and to address drainage issues.
Development of Palm St. Linear Park	167	Bellflower, City of	\$1,158,840	Ineligible	Ineligible	Grant submitted by the City of Bellflower to develop a passive use park adjacent to an existing pocket park utilizing public land. The project is deemed ineligible because the applicant secured a 10 year lease and bond funds require a 25 year term lease.
Development Palm Station on the Greenway Trail	166	Whittier, City of	\$137,500	Ineligible	Ineligible	Design and construction of an educational exhibit highlighting three main architectural styles of early Whittier homes (Victorian, Craftsman, and Spanish eclectic). Project is deemed ineligible because proposed signage does not meet program content requirements.
Duck Farm/LA River Regional Bike Trail	168	Watershed Conservation Authority	\$4,800,000		1	Grant request submitted by the Watershed Conservation Authority for a regional trail to connect the WCA's Duck Farm Park to the Los Angeles River Trail. This regional trail system would provide an important linkage between communities in the San Gabriel Valley to the City of Los Angeles and would facilitate the planning and feasibility of developing this regional trail system, including potential right of way acquisition and lease agreements with public entities. Working in collaboration with Supervisorial District 1 and LA County Public Works, proposed improvements include signage, rest stops and landscaped areas.
Eaton Canyon to Montebello Hills Trail	170	Save our Community, INC. 501-C3	\$25,000		1	Grant request submitted by Save Our Community, Inc., a non-profit organization, for the acquisition of right of way under Southern California Edison power lines for a trail from Pasadena to Montebello in two phases. Phase 1 includes working with SCE and Government entities on planning and invasive species removal. Phase II will take place after completion of SCE Tehachapi project connects parks under SCE right of way.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Fremont High Joint Use Garden	171	Los Angeles Neighborhood Land trust	\$300,000		1	Grant request submitted by the Los Angeles Neighborhood Land Trust, a non-profit organization, for the creation of a joint use garden at Fremont High School located in South Los Angeles. Site consists of an underused vacant portion of the school that consists of water quality improvements, including diverting storm water flow on-site to clean and filter, as well as matching Proposition O (LA City) funds.
Gateway Plaza Open Space Dev.	172	Alhambra, City Of	\$900,000		1	Grant request submitted by the City of Alhambra for the development of an existing vacant lot located at the intersection of Valley Boulevard and Fremont Avenue. Proposed development will include decomposed granite pedestrian pathways, installation of native California plants (xeriscape), seating elements, and construction of a 30 foot archway which will include interpretive historical information about the City. Conservation measures utilizing the surrounding landscape and installation of a bios wale for water filtering on site are also planned.
Gibson "Mariposa" Pk. Dev.	173	El Monte, City of/ Amigos de los Rios	\$1,478,825	1		Grant request submitted jointly by the City of El Monte and Amigos de Los Rios for the development of this 4.3 acre community park. The park has been designed with extensive community input based on a butterfly theme. Amenities will include: walking trail, native plants and trees with special focus on butterfly habitat, educational kiosk, outdoor classroom, interpretive area, half court basketball, restrooms, public art, interpretive signage and other butterfly themed amenities.
Green Roof Habitat Restoration Program	174	Los Angeles and San Gabriel rivers Watershed Council	\$268,302		1	Grant request submitted by the Los Angeles and San Gabriel Rivers Watershed Council for the establishment of functional habitats on green roofs in Southern California. LASGRWC will develop lists of native plants and appropriate maintenance procedures to establish habitat plants on various climatic test sites. Green roofs sin Southern California will become more common and as a result of this program will provide open space, habitat and corridors.
Greenway Trail Anti-Graffiti Measures	175	Whittier, City of	\$780,020		1	Grant submitted by the City of Whittier for anti-graffiti landscaping to enhance the bikeway and public use of the Greenway Trail that once completed will travel through Whittier from the San Gabriel River to Fullerton along the rail right of way. Where needed trellis will e installed to support the landscaping. Eliminating the graffiti will enhance children's safety on this bikeway. Includes related irrigation system modifications. Irrigation system will be based on evapo-transpiration rates and will be capable of multiple irrigations cycles with programmable soak-in time
Greenway Trail Conn.to SG River Bikeway	176	Whittier, City of	\$162,000		1	Grant submitted by the City of Whittier for the Greenway Trail Phase 1 to Re-evaluate the "2004 Whittier Greenway Trail Extension to the San Gabriel River Trail Alternatives Analysis" report and the report's recommendations in today's context. Phase 2, not included in this request, is the implementation of the updated recommendations for extending the Whittier Greenway Trail to the San Gabriel River Trail.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Greenway Trail E. Extension	178	Whittier, City of	\$3,700,000		1	Grant request submitted by the City of Whittier for the acquisition, design and construction of a 2.8 mile bikeway and pedestrian path from the eastern city limits to Mills Avenue. The City is currently negotiating with UPRR for a perpetual lease of an underutilized section of land adjacent to an active rail line. The new bikeway will connect to the Greenway Trail, and will eventually link Los Angeles and Orange Counties and provide residents of both counties with a new low impact recreational resource.
Greenway Trail Env. Project	177	Whittier, City of	\$495,000		1	Grant request submitted by the City of Whittier for for addressing environmental concerns. As with many abandoned railroad ROWs, the property that is now the Greenway Trail has the presence of arsenic that must be mitigated. This project would address this issue and improve the appearance of the trail. The City is looking into enhancing the mitigation efforts by utilizing Type 2 crusher base, recycled concrete, soil binder, and/or processed miscellaneous base applied in an aesthetic manner with areas of mulch. Project would enhance the Trail's aesthetics and the public's use of the trail.
Grigsby Street Pocket Park Development	179	Watts Neighborhood Council	\$109,400		1	Development of unused patch of land left over from the construction of the Imperial Highway overpass into a neighborhood living room. Located in Watts at the intersection of Wilmington Avenue and 115th street. Applicant deemed ineligible for grant funding due to the fact that applicant is the Watts Neighborhood Council which is an organization recognized by the City of Los Angeles but is not an official non-profit organization.
Habitat Authority Mobile Ed Development-Whittier	180	Puente Hills Landfill Native Habitat Preservation Authority	\$75,000	Ineligible	Ineligible	Project includes purchase of an environmentally-friendly vehicle to travel to schools and the community for outreach programs consistent with "Coexisting with Wildlife message." Funding request is deemed ineligible because program funding will not pay for vehicle costs.
Hazard Stream System Wetland Restoration Project	181	North East Trees	\$4,790,000	Ineligible	Ineligible	Located in East Los Angeles, project will restore approximately .5 miles of stream course with several smaller wetlands through removal of railroad gravels and recontouring of the valley floor. Newly restored habitat will become an integral part of Hazard Park through implementation of trails, bridges and observation areas, making the wetland and stream accessible to the public for the enjoyment of nature. Project location is outside of RMC Territory.
Huntington Park Trail and Open Space Development	182	Huntington Park, City of	\$3,925,000		1	Grant request submitted by the City of Huntington Park for the planning, design, development and rehabilitation of 5.8 acres of open space and 1.63 trail miles at Salt Lake Park and adjacent Department of Water and Power transmission corridor. Salt Lake Park trail development and rehabilitation to include more than 6,000 feet of trail space and complete replacement of irrigation system to improve water conservation and hydrate native landscaping to be installed around the trail. DWP portion to include the lease and development of 10 parcels of land into trail and open space.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Huntington Park Water Reservoir	183	Huntington Park, City of	\$2,430,000		1	Grant request submitted by the City of Huntington Park for feasibility and planning assessment for converting existing water reservoir sites (1 to 5) to an underground facility with the intention of utilizing the remaining surface area for compatible open space park uses. Water reservoirs range in size from .26 acres to 2.1 acres. Secondary phase of project to include design, permit, management and construction costs associated with converting one or more of the water reservoirs into an underground facility. Subsequent project phase will include developing surface area into compatible open space recreation area.
Hyde Park New Park Development	184	Los Angeles Neighborhood Land trust	\$167,450		1	Grant request submitted by the Los Angeles Neighborhood Land Trust, a non-profit organization, for the creation of a new .27 acre park on a piece of City of Los Angeles city surplus property located in a park poor neighborhood. Storm drain day lighting on property can be incorporated into the design and best management practices for the site. Proposed project includes a new play area, picnic area with overhead shelter, landscaping, fencing and gates.
Implementation of Whittier Parks Needs Study	185	Whittier, City of	\$0		1	Grant request submitted by the City of Whittier to compile a Parks Needs Study for the city's twenty parks, several of which are located in disadvantaged, CDBG low-mod areas or City Redevelopment Areas. Needs list will include low impact recreation and watershed improvement projects.
Jefferson Park	246	Pomona, City of	\$2,150,000	1		Grant request submitted by the City of Pomona for the acquisition and development of a new 1.76 acre urban park, to include exercise/walking trail, picnic area and other amenities.
Joint use Nature Trail Columbia School	186	El Monte City School District/ Amigos de Los Rios	\$367,000		1	Grant request submitted jointly by the El Monte City School District and Amigos de Los Rios for increasing use of the existing school yard by opening it up to the community after school hours and on weekends. The multi-benefit project includes plating native habitat and trail amenities around the perimeter of the sports fields located on the 5 acre Columbia Elementary School campus. Other amenities include an educational kiosk, interpretive signage, water fountains and benches.
Joint use Nature Trail Cortada School	187	El Monte City School District/ Amigos de Los Rios	\$367,000		1	Grant request submitted jointly by the El Monte City School District and Amigos de Los Rios for increasing use of the existing school yard by opening it up to the community after school hours and on weekends. The multi-benefit project includes sports fields outfitted with state of the art water conserving irrigation system surrounded by a nature trail loop on the 3 acre Cortada School campus. Other amenities include an educational kiosk, interpretive signage, water fountains and benches.
Joint use Nature Trail Gidley Elem School	188	El Monte City School District/ Amigos de Los Rios	\$367,000		1	Grant request submitted jointly by the El Monte City School District and Amigos de Los Rios to create a native habitat area of trees and shrubs around the perimeter of the fields outfitted with state of the art water conserving irrigation system surrounded by a nature trail loop on the 3 acre Gidley Elementary School campus. Other amenities include an educational kiosk, interpretive signage, water fountains and benches.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Joint use Nature Trail Wilkerson School	189	El Monte City School District/ Amigos de Los Rios	\$367,000		1	Grant request submitted jointly by the El Monte City School District and Amigos de Los Rios for increasing use of the existing school yard by opening it up to the community after school hours and on weekends. The multi-benefit project includes sports fields outfitted with state of the art water conserving irrigation system surrounded by a nature trail loop on the 3 acre Wilkerson Elementary School campus. Other amenities include an educational kiosk, interpretive signage, water fountains and benches.
Joint Use Nature Trail-Kranz School-Mnt. View S.D.	191	El Monte, City of/ Amigos de los Rios	\$367,000		1	Grant request submitted jointly by the City of El Monte and Mountain View School District to create a native habitat area of trees and shrubs around the perimeter of the fields outfitted with state of the art water conserving irrigation system surrounded by a nature trail and fitness loop on the 4.5 acre Kranz Elementary School campus. Other amenities include an educational kiosk, interpretive signage, water fountains and benches.
Joint use Nature Trail-Potrero School	190	El Monte City School District/ Amigos de Los Rios	\$367,000		1	Grant request submitted jointly by the El Monte City School District and Amigos de Los Rios for increasing use of the existing school yard by opening it up to the community after school hours and on weekends. The multi-benefit project includes sports fields outfitted with state of the art water conserving irrigation system surrounded by a nature trail loop on the 2.5 acre Potrero Elementary School campus. Other amenities include an educational kiosk, interpretive signage, water fountains and benches.
LACC Restoration Projects	192	LA Conservation Corps	\$250,000		1	Grant request submitted by the Los Angeles Conservation Corps to provide 258 days or 10,320 hours of crew labor. Project funding covers all the costs to provide a crew including supervision, transportation, insurance, tools, uniforms and safety equipment. Project funding does not include material costs to complete assigned projects.
Liberty Pk.Raquetball Rest.	193	Cerritos, City of	\$0	Ineligible	Ineligible	Grant request submitted by the City of Cerritos for the renovation of the four-racquetball courts into a large multi-purpose room with one remaining racquetball court to better serve the community with a variety of programming elements.
Mary Vandyke Park Nature Trail Enhancement	194	South El Monte, City of	\$126,100		1	Grant request submitted by the City of South El Monte for upgrading restrooms and playground area and addition of a nature trail with interpretive signage on this existing community park. Project will include decomposed granite and concrete walkways, native landscaping, interpretive signage for environmental education, benches and picnic tables.
Maywood Ave. Pk/Dev.	195	Trust for Public Land	\$629,665		1	Grant submitted by the Trust for Public Land for the development of a new pocket park on a vacant lot owned by the City of Maywood. The park will be located on one of Maywood's densest streets filled with a mix of overcrowded apartments, misused commercial and industrial businesses. The site is located on the western boundary of the City where parks services are far and few between. In a community where residents are plagued with chronic health conditions such as obesity and high blood pressure the park will provide a place for exercise, relaxation, and community involvement.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Multi-Purpose Trail/Landscape Dev. Project	196	South Gate, City of	\$2,898,600		1	Grant submitted by the City of South Gate to beautify, enhance access and provide low impact recreation opportunities by improving the southern 25 feet of the Union Pacific Railroad right of way (UPRR R/W) between Santa Fe Avenue and the Los Angeles River trail system. The improvements consist of a multi-purpose trail, in addition to eliminating the visual blight of the UPRR R/W. The City of South Gate is an impacted city and the project will enhance urban land as defined in the Urban Green Space designation.
New Temple Park	198	South El Monte, City of	\$219,000		1	Grant request submitted by the City of South El Monte for the creation of a nature trail loop around the existing athletic fields of New Temple Park. The nature trail will include native trees, shrubs, interpretive signage and benches and will be designed to educate park users on water resources, natural and cultural history of the area.
Northside Park Playground Development	199	Azusa, City of	\$50,000		1	Grant request submitted by the City of Azusa for the development and low impact recreation of Northside Park. Proposed Geo Sculpt™ play unit will offer a unique opportunity for children ages 10 and up. Project will also provide an excellent opportunity to augment existing recreation amenities on site while continuing to fight the battle of childhood obesity. The Play Ball feature would be the first of its kind in the State of California.
Orizaba Park Trail Devo	200	Long Beach Department of Parks, Recreation and Marine, City of	\$600,000		1	Grant submitted by the City of Long Beach for the development of a portion of the citywide east-west PE ROW bike path and construction of a perimeter walking trail for passive recreation in conjunction with the expansion and renovation of Orizaba Park.
Pacific Electric Right of Way Greenway Acquisition	201	Long Beach Department of Parks, Recreation and Marine, City of	\$5,000,000		1	Grant request submitted by the City of Long Beach for the expansion of the Red Car Greenway Trail project located along the former Pacific Electric Right of Way (PEROW) between Orange and Martin Luther King Blvd. in the City of Long Beach.
Padua Ave Park Devo Project-Claremont	202	Claremont, City of	\$1,500,000		1	Grant request submitted by the City of Claremont for the development of low impact recreation, drought tolerant landscaping and ground water recharge as part of the larger development taking place on the 22 acre Padua Park construction. Amenities in the park include a network of walking trails with fitness core stations, nature trail with interpretive signage, soccer fields, girl's softball field, tennis courts and other play areas. The city recently adopted a sustainability policy requiring that all city projects address environmental needs to include drought tolerant landscaping, health/fitness and community well-being, ground water recharge, and low energy use facilities addressed by this project.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Paramount Bikepath/Ped Trail to River	203	Paramount, City of	\$4,900,000		1	Grant request submitted by the City of Paramount for the development of a bike and pedestrian trail along the MTA right-of-way from Somerset Blvd. to the Los Angeles River. The trail will connect to the bike path already in development from the San Gabriel River to Somerset Blvd. through the City of Bellflower and the City of Paramount. Proposed project will provide a passive green space and eliminate blight along the railroad intersection through Paramount and provide an additional asset to improve the quality of life in Paramount.
Paramount Fit. Pk	204	Paramount, City of	\$1,207,500		1	Grant request submitted by the City of Paramount for a 9 acre new development of park space utilizing Edicnao right of way property under a sublease from Pacific Storage Partners. The park will consist of 4 lane 1/4 mile rubberized walking/running track, natural turf areas, state of the art irrigation, para course stations, sand volleyball courts, rubberized exercise stations and a walking path throughout the park. The park will be accessible to two local K-8 Schools.
Peck Water Conservation Park Trail Development	207	El Monte, City of/ Amigos de los Rios	\$4,663,855		1	Grant request submitted by the City of El Monte and Amigos de Los Rios. This project is comprised of four aspects of a multi-benefit 200 acre recreation facility, including restoration and enhancement of habitat, creation of educational demonstration gardens and a network of trails. Project will create a continuous 1.8 mile multi-modal equestrian, walking, biking trail connecting the North and South Shores of Peck Lake. Amenities will include interpretive signage, water fountains, benches, picnic areas and upgraded restroom and parking lot with BMPs for water quality.
Pine & Bryant Vacant Land Acquisition-El Monte	208	El Monte, City of/ Amigos de los Rios	\$660,000		1	Grant request submitted jointly by the City of El Monte and Amigos de Los Rios for the development of a .6 acre passive use pocket park that will include native landscaping, sitting areas with benches and tables, shade structures and interpretive signage. The City of El Monte will conduct a community outreach campaign to discuss and review the design of the new proposed neighborhood park.
Pine Avenue Park Acquisition & Development	209	Trust for Public Land	\$526,402	1		Grant request submitted by The Trust for Public Land, a non-profit organization, in collaboration with the City of Maywood for the acquisition and development of a small 6600 sq. ft. vacant lot into a community pocket park. The park will provide an educational model of sustainable landscaping which residents can incorporate into their own home gardens. This project will create vital open space in the City of Maywood which is a very dense city in the Southeast area of LA County.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Pine/Falling Leaf P. Park	210	Rosemead, City of	\$550,000		1	Grant request submitted by the City of Rosemead for the development of three pocket parks currently situated on vacant parcels located underneath Southern California Edison transmission line right of way areas. Proposed project will make improvements to the undeveloped parcel between Pine Street and Falling Leaf Avenue. Parks will include native riparian landscape, walking trails, interpretive kiosks, and passive recreational amenities. Projects are part of a larger vision to create a continuous greenway space along the entire SCE easement through the City of Rosemead.
Pocket Parks in E. San Gabriel, Pasadena	211	Save our Community, INC. 501-C3	\$5,000		1	Grant request submitted by Save Our Community, a non-profit organization, to develop pocket parks on three vacant parcels located underneath SCE transmission lines. Locations of the parks are subject to negotiations between the LA County Board of Supervisors, LA County Parks and Recreation Department, and SCE between Graves Avenue on the north and Arroyo Drive on the south. Funding amount not specified.
Pocket Parks in South San Gabriel	213	Rosemead, City of	\$0		1	Grant request submitted by the City of Rosemead for the development of pocket parks on three vacant parcels located underneath SCE transmission line right-of-way areas. Proposed project is for improvements to the undeveloped parcel at 2500 San Gabriel Boulevard. Pocket parks will include native riparian landscape, walking trails, interpretive kiosks, and passive recreational amenities. Projects are part of a larger vision to create a continuous greenway space along the entire SCE easement through the City of Rosemead.
Pocket Parks/Trails in San Gabriel	212	Rosemead, City of	\$5,000		1	Grant request submitted by the City of Rosemead to develop pocket parks located on three vacant parcels under Southern California Edison transmission right of way areas. Grant application is for the purpose of making improvements to the undeveloped parcel between Pine Street and San Gabriel Boulevard. The pocket parks will include native riparian landscape, walking trails, interpretive kiosks, and passive recreational amenities. Project will consist of two phases and involve contributions from City staff, the public, SCE and neighboring residents. These projects are part of a larger vision to create a continuous greenway space along the entire SCE easement through the City of Rosemead.
Rancho Santa Ana Botanic Garden Phase 1	217	Rancho Santa Ana Botanic Garden At Claremont	\$5,030,000		1	Grant request submitted by the Rancho Santa Ana Botanic Garden for redesigning and reconfiguring its 86 acre botanic garden, associated facilities an infrastructure. This application focuses specifically on the first piece of the nearly completed master plan, that envisions an all new entrance road into the center of the Claremont property thereby opening public access to 55 acres of our California native plant garden rarely seen by visitors. This development encourages deeper access, by more visitors, to open space, low impact recreation, and California native plant interpretation and education, while restoring upland habitat and improving water quality and water conservation.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Rosemead Citywide Parks/Trails Vision Planning	216	Rosemead, City of	\$250,000		1	Grant request submitted by the City of Rosemead for development of a master planning document that will be used to identify needs and opportunities for new and existing recreational amenities. This project will help determine priorities for improving recreational opportunities throughout the City. Work will also include developing guidelines for native and drought-tolerant landscaping for park areas. With a high need for additional greenspace, it is critical that the City complete this plan and better position itself for further park development projects and funding opportunities. A high emphasis will be placed on trail development, open space preservation and bikeway planning. This project will also include several design charrettes and planning workshops to help engage community input.
San Gabriel Blvd. Pocket Park Developments	218	Rosemead, City of	\$550,000		1	Grant request is from the City of Rosemead for the development of pocket parks on three vacant parcels located underneath Southern California Edison transmission line right-of-way areas. The needed parks are located in dense residential areas that contain little open space. This application is to make improvements to the trails, interpretive kiosks, and passive recreational amenities. This project will consist of two phases and involve contributions from City staff, the public, SCE, and neighboring residents. These projects are a part of a larger vision to create a continuous greenway space along the entire SCE easement through the City of Rosemead.
San Gabriel/Pine Pocket Park-Rosemead	219	Rosemead, City of	\$550,000		1	Grant request is from the City of Rosemead for the development of pocket parks on three vacant parcels located underneath Southern California Edison transmission line right-of-way areas. The needed parks are located in dense residential areas that contain little open space. This application is to make improvements to the trails, interpretive kiosks, and passive recreational amenities. This project will consist of two phases and involve contributions from City staff, the public, SCE, and neighboring residents. These projects are a part of a larger vision to create a continuous greenway space along the entire SCE easement through the City of Rosemead.
Sanchez Adobe Vista and Interpretation-Montebello	220	Save our Community, INC. 501-C3	\$5,000		1	Grant request submitted by Save Our community (inc, 501-C3) for invasive removal E of the Sanchez adobe and restoration of native habitat, access trail to Montebello Hills and Montebello City projects behind the Whittier Narrows Dam, nature/interpretive trail, plan for new habitat on South face of Whittier Narrows.
Santa Fe Dam Trail Enhancement Project	221	Watershed Conservation Authority	\$420,000		1	Grant request submitted by the Watershed Conservation Authority for improvements to the San Gabriel River bike trail that crosses Arrow Highway into the Santa Fe Dam. Improvements include directional and interpretive signage, mile markers, re-stripping and landscaping along the bike trail. Project would also include the development of a rest stop area with restrooms, picnic areas and a landscaped open space area. These amenities would provide much needed infrastructure to the trail.
Sempra Energy Park-Montebello	244	Save our Community, INC. 501-C3	\$6,000		1	Project proposal submitted by Save Our Communities, a nonprofit organization to acquire and develop a passive park.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Spane Park Expansion/Renovation-Paramount	225	Paramount, City of	\$10,775,000		1	Grant request submitted by the City of Paramount for the expansion of Spane Park by 3.3 acres to include a walkway connecting to existing park, open space with bioswales for water retention and a dry stream bed. This renovation will allow for the public access of 1 additional acre of the park for public use.
St. Isidore Center Acquisition/Restoration-Los Alamitos	226	Comite' Del Amor	\$1,418,605	Ineligible	Ineligible	Purchase of former historic church building to convert to non-denominational chapel open to the community. This project is deemed ineligible because bond funds cannot be used for restoration of building that does not meet program goals.
Under Ocean Intake Development	230	Long Beach Water Department	\$1,100,000		1	Grant submitted by the City of Long Beach Water Department for building an intake and discharge demonstration facility for research in developing a plan for future desalination facility, while not adversely affecting public access to open space. The intake Galleries will consist of slow sand filters under the ocean floor that are designed to eliminate the sea life entrapment associated with intake screens. This project will benefit the public access to the beach by utilizing the excavated sand by placing it on the beach to restore the beach from erosion. Improvements to the parking lot will also be made as part of the project.
Valinda & Bassett Schools Low impact Improvements	231	Los Angeles County Flood Control District	\$2,500,000		1	Grant request submitted by the Los Angeles County Flood Control District to incorporate low-impact development (LID) practices at four school campuses including: Villacorta Elementary, Torch Magnet, Van Wig Elementary and Bassett High School located in the unincorporated communities of Valinda and Bassett. These improvements will include water quality, water conservation and landscaping enhancements within the school campuses while providing a recreational and educational resource for students and faculty. Implementation requires the successful negotiation of joint use agreements with the School Districts.
Vermont Median Pilot Dev/Assessment	232	Los Angeles and San Gabriel rivers Watershed Council	\$285,000		1	Grant request submitted by the Los Angeles and San Gabriel Rivers Watershed Council for a preliminary assessment of the opportunities and constraints along the 170 foot right-of-way median that runs through Vermont Avenue in South Los Angeles. Assessment will be conducted by Cal Poly Pomona planning students and will include engineering and design recommendations and construction of a pilot park along two blocks of the median (89th -90th Street).
Water Conservation Efforts at various Parks	234	Whittier, City of	\$897,750		1	Grant request submitted by the City of Whittier for upgrading the irrigation systems at various City parks in order to achieve water conservation. Proposal calls for replacing obsolete technology irrigation valves and heads with match precipitation rate heads. The systems will utilize pressure compensating heads and valves to eliminate overspray and runoff and reduce water loss in the event of head or nozzle damage. Parks are located in community development block grant (CDBG) low to moderate areas as well as the city's redevelopment areas.

URBAN LANDS PROJECTS						
Project Name	Excel ID #	Applicant	Total RMC Funds	Tier 1	Tier 2	Project Description
Water Conservation Features- Various Whittier Parks	235	Whittier, City of	\$33,000		1	Grant request submitted by the City of Whittier for upgrading and improving the water features at five Whittier parks with automatic timed control. New features will include water conservation, with timed push button "on" switches. Proposed project includes small educational signs highlighting the water conservation efforts and its impact on the environment.
Water Conservation Master Plan-Parks	236	Whittier, City of	\$250,000		1	Grant requested by the City of Whittier to prepare a master plan for citywide parks and medians to improve irrigation efficiency and reduce water consumption in the landscape.
Watts New Park Development	237	Los Angeles Neighborhood Land trust	\$132,550		1	Grant submitted by the Los Angeles Neighborhood Land Trust to create a new park on a piece of LA City surplus property in a park poor neighborhood around the corner from the Watts Towers. A new play area, trees, covered seating area, landscaping, walkway, fencing and gates would be provided.
White Ave Park-Pomona	243	Pomona, City of	\$6,900,000	1		Grant request submitted by the City of Pomona for the acquisition and development of a 4.3 acre urban park including a fitness trail, picnic and rest areas and other amenities.
Whittier Narrows Bike/Ped. Path Dev.	238	Los Angeles Department of Parks and Recreation, County of	\$7,740,000		1	Grant request submitted by the County of Los Angeles Department of Parks and Recreation for the development of a 3 mile bicycle and walking exercise path, exercise equipment, warm-up stations, stretching apparatus, educational/interpretive signage along the route, and a bio-swale alongside the bicycle lane. Project includes native plant materials serving as habitat for wildlife amphibian, bird and insect populations and hopes to enhance public access through a directional signage program. Project will provide direct and indirect links to the San Gabriel and Rio Hondo River as well as historical and cultural opportunities in the Bosque Del Rio area of Whittier Narrows and adjacent natural areas.
Whittier Narrows Rec Area Development & Expansion	240	Watershed Conservation Authority	\$6,100,000		1	Grant request submitted by the Watershed Conservation Authority for implementation of priority projects in the Whittier Narrows Recreation Area Master Plan being facilitated by the WCA. Funding request is for implementation of priority projects in the plan, examining the feasibility of acquiring sites, and developing areas within the WNRA for recreational activities including a feasibility analysis for the Fiesta property and the campground in Pico Rivera. Other projects identified in the plan will include bike/pedestrian trail connections, directional and interpretive signage.
Zacatecas Park Playground Development	241	Azusa, City of	\$25,000		1	Grant request submitted by the City of Azusa for the development of a playground and low impact recreation at Zacatecas Park. Proposed Geo Sculpt TM play unit will offer a unique opportunity for children ages 10 and up. Project will also provide an excellent opportunity to augment existing recreation amenities on site while continuing to fight the battle of childhood obesity. The Play Ball feature would be the first of its kind in the State of California.
